"Sherwoods to support tournaments and events of Ras Al Khaimah's Tower Links Golf Club""Sherwoods to support tournaments and events of Ras Al Khaimah's Tower Links Golf Club"

Sherwoods Independent Property Consultants have announced that they recently signed an agreement to sponsor Tower Links Golf Club in Ras Al Khaimah, a key strategic move that enhances Sherwoods' access to and influence over elite property buyers and investors in the region. The sponsorship, which was initiated by Sherwoods' External Communications Department as part of the real estate company's commitment to the Club and Ras Al Khaimah, will allow Sherwoods to sponsor certain tournaments and events organised by Tower Links Golf Club.

As part of the sponsorship package, visitors will be greeted in the club's foyer with an interactive kiosk fitted with a touch screen, enabling them to view Sherwoods services and products. In addition, specific information about all of Sherwoods' services will be easily accessible in designated areas; Sherwoods flying banners will be prominently displayed on the fairways during tournaments, while the Sherwoods logo will be in the score cards, cart labels, format sheets and score sheets. Tournament prizes will likewise be presented by staff members of the Ras Al Khaimah branch of Sherwoods.

"Sherwoods is proud to form this partnership with Tower Links Golf Club, as this will generate considerable exposure for both companies. Golf is the sport of choice among businessmen and high-profile individuals. As such, we have made it a point to reinforce our presence in the golfing world as part of our marketing strategy. Sherwoods has an extensive range of property choices all over the world, and we intend to showcase our projects through various innovative ways such as this," said Annette Evans, Head of External Communications, Sherwoods Independent Property Consultants.

Aside from the various marketing material displayed at the golf club, Tower Links will also assign a prominent position for the Sherwoods logo on its website along with a corresponding link.

"We often hear about business transactions and even big-time contracts being settled in the fairways; indeed, the golf course has been traditionally regarded as an extension to the business office, but in a much more relaxed and comfortable environment. This unique fusion of business and recreational elements somehow represents the core values of Sherwoods as it is our mission to enrich our clients' lives by helping them achieve optimum economic gains and premium lifestyle benefits from their property investments," added Iseeb Rehman, Managing Director, Sherwoods Independent Property Consultants.

Several gifts and prizes will be presented by the RAK Sherwoods Branch to the winners of Tower Links' weekly tournament as part of the sponsorship package. Sherwoods will also distribute Sherwoods branded shirts, caps and the 'Think Green' bags, which have been an overwhelming success due to the eco-friendly vision of Sherwoods.

Founded in 1988 in the UK by Iseeb Rehman, Sherwoods has been expanding its global presence with offices in Abu Dhabi, Dubai, Ras Al Khaimah, Sharjah, Doha, Bahrain, Moscow and London with more regional headquarters expected to open soon. Sherwoods offers a full range of real estate services, including sales, consultancy and valuation.

Expertly developed around a mangrove reserve with the Hajar Mountains serving as its majestic backdrop, Tower Links Golf Club was inaugurated in May 2004 with the floodlit back nine and a Golf Academy. In January 2005, the club become a full 18-hole golf course with the opening of the front nine and the clubhouse.

Innovative Facilities Invited to Subr

(TAMPA, FLORIDA, USA, 15 AUGUST 2008) ISPE, a global not-for-profit association of 25,000 pharmaceutical science and manufacturing professionals together with INTERPHEX and Pharmaceutical Processing magazine today announced a call for global pharmaceutical manufacturing organizations to submit details of newly constructed or renovated facilities for the 2009 Facility of the Year Awards (FOYA) program. Its fifth year, has quickly become the pre-eminent program that recognizes and disseminates best practices in the manufacturing industry and those companies that utilize innovative technologies to reduce the cost of production of high quality medicines and enhance capital efficiency. This global program attracts submissions from more than 20 countries from around the world. Past winners have come from Belgium, Canada, China, Denmark, Germany, Ireland, Japan, the United Kingdom, and the United States.

Receiving recognition as a Facility of the Year Award winner generates unsurpassed opportunities for pharmaceutical manufacturers and their key suppliers to showcase their innovations to showcase their facilities said Clive Mullins, ISPE Facility of the Year Awards Chairman. This program really is starting to become the pre-eminent program that recognizes and disseminates best practices in the pharmaceutical manufacturing industry and those companies that utilize innovative technologies to reduce the cost of production of high quality medicines and enhance capital efficiency.
