AMAC Aerospace appoints Emerald Media to handle press and publicity

AMAC Aerospace, a leading provider of corporate aviation maintenance and completion services, has appointed boutique aviation PR consultancy Emerald Media, to handle its external public relations activity. The contract is effective immediately.

Founded in Basel, Switzerland, four years ago, AMAC Aerospace, is headed by CEO Kadri Muhiddin. The company boasts a 500-strong workforce and an orderbook of US\$1 billion plus. Its business is split 50:50 between VIP completions and maintenance work and its 23,000 sq ft hangar facilities at Euro Airport Basel-Mulhouse have the capability to accommodate four wide-body and four single-aisle large jets, plus lighter business jet types.

“This is a very exciting time for AMAC Aerospace as we expand the business into Turkey and inaugurate our third wide body hangar at Basel in September,” said Kadri Muhiddin. “These new developments, coupled with the opportunities currently being presented in the business aviation sector, provide us with some excellent business prospects, which we intend to maximise to full potential. Emerald Media’s experience and expertise in the business aviation fraternity will be very valuable in helping us publicise our objectives and achievements.”

Based in Hampshire, UK, Emerald Media marks its 19th year in aviation PR in 2012. The company has supporting offices in

Dubai, Germany, Spain, the USA and Australia and is well positioned to support AMAC’s media requirements as the company expands its activities. Emerald Media first ventured into business aviation PR in 2004, its success stories to date include a long-standing relationship with London Oxford Airport, which saw the inauguration of a brand new business aviation terminal in 2008, and has recently seen the relationship expand to include sister company the Barclays London Heliport.

Other Emerald Media clients include; The Jet Business, the world’s first ever street-level corporate aviation showroom for the acquisition and sales of private jet aircraft and ancillary services; Evergreen Apple Nigeria (EAN) which last year opened the first private FBO facility in Nigeria located immediately adjacent to Lagos’ Murtala Mohammed International Airport; and ARINC, a premier provider of communications, engineering and integration solutions to customers in the defence, commercial and government sectors.

Emerald Media will be supporting AMAC at the AIREX exhibition in Turkey in September and at MEBA in Dubai in December where the company will participate with a hospitality chalet and stand.

Dave Stockton to receive 2012 PGA Distinguished Service Award at upcoming 94th PGA Championship

The PGA of America will be presenting the 2012 PGA Distinguished Service Award to two-time PGA Champion, Dave Stockton Sr., on Wednesday, August 8th.

Stockton will receive the Association's highest annual honor in conjunction with the 94th PGA Championship at The Ocean Course on Kiawah Island, S.C. The award presentation will be held at the North Charleston Performing Arts Center in Charleston, S.C.

The PGA Distinguished Service Award, inaugurated in 1988, honors outstanding individuals who display leadership and humanitarian qualities, including integrity, sportsmanship and enthusiasm for the game of golf.

"Dave Stockton's imprint upon golf extends beyond the boundaries of a course where he excelled at the highest level," said PGA of America President Allen Wronowski. "He has coached many of the world's finest men and women players to success, and has selflessly supported charitable efforts that benefit higher education, the under privileged and our nation's heroes. A champion in so many ways, we are honored to bestow upon him the 2012 PGA Distinguished Service Award."

Born in San Bernardino, CA, the son of a golf professional, Stockton devoted himself to golf after surviving a surfing accident at age 15 that left him with a broken back. He followed his father, Gail Stockton, in athletic success at the University of Southern California by earning All-American honors and winning the then-Pacific-8 Conference Championship. Stockton graduated in 1964 with a degree in general management, turned professional and married California beauty queen Cathy Hales.

Stockton captured the 1970 PGA Championship at Southern Hills Country Club in Tulsa, Okla., and the 1976 PGA Championship at Congressional Country Club in Bethesda, Md. He was a member of four victorious U.S. Ryder Cup Teams, competing in 1971 and '77, and serving as Captain in 1991 at Kiawah, and as the Assistant Captain to Paul Azinger at Valhalla in 2008. He accumulated 25 wins, in over 40 years on the PGA and Champions Tours including 5 Majors.

Charitable events that Stockton has been heavily involved over the past 25 years include: the Bighorn Institute Golf Classic; the USC Scrambler Golf Classic; the University of Redlands Golf Classic; the Dave Stockton Coyote Classic; the U.S. Marines Scholarship Foundation; the George Archer Memorial Foundation for Literacy; the Children's Fund of San Bernardino; the Stater Bros. Charities Dave Stockton Heroes Challenge; the Dallas Patriot Award Dinner and Medal of Honor Golf Classic; and the Believe Walk benefitting cancer care in the Stockton's home town community.

"I'm very excited about this honor, which is totally unexpected. My first thought was, 'Why me?'" said Stockton. "I have been fortunate to have many good things happen to me in golf, with the biggest honor serving as Ryder Cup Captain. I believed in giving back through golf. I had a gift as a motivational speaker and used it to help others. I have tried helping people gain a better understanding about what golf can do to help them feel better about themselves."

In 2009, Stockton changed his focus to teaching putting and the short game, creating Stockton Golf with his sons, teaching professionals Dave Jr. and Ron

Ron Stockton has been teaching golf for over 25 years and in addition to coaching his father to 14 wins on the Champions TOUR, he's helped some of the top PGA and LPGA TOUR players in the game. Dave Stockton Jr. played 10 years on Tour with two wins on the Nike TOUR following an All-American career at USC.

Following his competitive playing days, he joined his father and brother as an instructor at Stockton Golf. Stockton Golf's tailored offerings can include: Short game and putting clinics, On-course instruction, mental approach, driving range instruction, pre and post event engagement awards presentation, equipment fittings & other value add items and motivational speaking.

Appearing at some of the most sought after golf locations around the globe, the Stocktons have had the pleasure to work with some of the world's top companies, like American Airlines, American Express, Avis, Time Warner, IBM and Merrill Lynch.

Current and former clients include Tour players Phil Mickelson, Rory McIlroy, Adam Scott, J.B. Holmes, Martin Laird, Justin Rose, Hunter Mahan, Morgan Pressel, Suzann Pettersen, and Yani Tseng, among others.

Earlier this year, Stockton Golf introduced their new DVD, "Unconscious Putting".

Simplify your routine with help from golf's first family of putting. Together they've taught more than 50 players on the world tours, and helped thousands of amateurs in clinics around the world, and now, through their new DVD they can help you. With Stockton Golf's new DVD "Unconscious Putting" you'll learn how to, roll your ball using your own natural putting signature, not by copying one that doesn't fit, or following a check list of mechanical thoughts. Improve your mental game and discover that putting is an art that you can master, and finally reconnect with your instincts to see the line more clearly and get a better feel for distance. Find out why Dave is called "The Pro Tours' Hottest Coach" and why so many of them rely upon his Signature Approach to create wins on Sunday afternoon. The "Unconscious Putting" DVD retails for \$29.99 and is available at <http://www.StocktonGolf.com> Media members interested in receiving a copy of "Unconscious Putting" for an editorial review should contact Joe Wiczorek at joe@themediagroupinc.com.

94TH PGA CHAMPIONSHIP 2012

PORT OF LOS ANGELES SEEKS MASTER DEVELOPER FOR 30-ACRE WATERFRONT RETAIL DEVELOPMENT OPPORTUNITY

30-Acre Frontage Location will be the Retail-Commercial Focal Point of the Port's \$1.2 Billion "LA Waterfront" Development Program in San Pedro

The Port of Los Angeles has issued a Request for Qualifications (RFQ) for qualified commercial real estate developers interested in redeveloping the 30-acre, fully entitled San Pedro waterfront property known as Ports O' Call Village, located along the Port's Main Channel and adjacent to downtown San Pedro.

"The City and Port of Los Angeles are pleased to offer qualified parties who have a vision for creating a world-class L.A. Waterfront, an unparalleled redevelopment opportunity that will rival other urban waterfronts around the globe," said Los Angeles Mayor Antonio Villaraigosa.

"The redevelopment opportunity of the century is waiting on the waterfront, at the heart of the Pacific Rim in the Port of Los Angeles," said Los Angeles Councilman Joe Buscaino. "The awesome majesty and spectacle of an urban waterfront mecca within minutes of millions is an attraction like no other in Southern California."

"We are investing hundreds of millions of dollars in public waterfront infrastructure along 16 miles of community-adjacent port property at the Port of Los Angeles," said Port Executive Director Geraldine Knatz, Ph.D. "We're building a waterfront to fit the scale of the largest port complex in the western hemisphere at the doorstep of the largest regional market in the western U.S."

The development site includes 3,000 linear feet of rare water frontage and 375,000 square feet of retail and tourism-related entitled uses. Located at the south end of the Harbor (I-110) Freeway, the site is conveniently accessible to downtown Los Angeles and other key areas of Southern California.

The parcel was developed as Ports O' Call Village in the 1960s and was a popular regional destination for many years. The property is located just south of San Pedro's historic downtown business and is within walking distance from the Port's World Cruise Center, which sees hundreds of thousands of cruise travelers each year. Other attractions within walking distance include the USS IOWA Battle ship museum and CRAFTED at the Port of Los Angeles, a large-scale permanent indoor craft marketplace fashioned from two WWII warehouses by the developer of the popular Bergamot Station Arts Center in Santa Monica.

The proposed redevelopment site is in the immediate vicinity of several public waterfront enhancements, including a new downtown harbor and public plaza slated for completion in 2014. In recent years, the Port has made extensive investments in promenades, marinas, parks and other public waterfront amenities aimed at providing greater public access to the waterfront. In addition to the multi-phase, \$36 million Downtown Harbor water basin, promenade and public plaza under construction, other projects completed or underway include the \$130 million Cabrillo Way Marina and public promenade, the \$16.3 million Fanfare Fountain and Plaza, and the \$23.4 million Harbor Boulevard Parkway promenade. The Port plans to select a master developer to carry out a comprehensive redevelopment of the property and enter into a long-term ground lease. Applicants will be reviewed based on their development vision and strategy for the site, their experience in developing premiere and unique commercial real estate projects and experience working with public agencies.

Developers interested in responding are encouraged to attend a pre-proposal meeting at 2 p.m. on Wednesday, Aug. 8 at The Plaza at Cabrillo Marina, 224 Whalers Walk, San Pedro, Ca. 90731.

The Port of Los Angeles is America's premier port and has a strong commitment to developing innovative strategic and sustainable operations that benefit the economy as well as the quality of life for the region and the nation it serves. As the leading seaport in North America in terms of shipping container volume and cargo value, the Port supports more than 830,000 regional jobs and \$35 billion in annual wages and tax revenues.

MORE CARGO, CLEANER AIR AT THE PORT OF LOS ANGELES

New Data Shows that Regional Air Pollution Attributable to Port Activity is Shrinking and the Port is in Line to Meet its 2014 Diesel

CENTRALLIA EXPERIENCE:

ADVANCED MANUFACTURING

Tara Schmidt
Regional Manager,
Eastern U.S. & Canada
Sioux Corporation
Beresford, South
Dakota, USA
www.sioux.com

“Centrallia helped us expand our reach into Canada.”

Sioux Corporation, founded in 1939, designs and manufactures industrial quality, application-specific cleaning, water heating and steam generating equipment that provides solutions and support to select customers and markets throughout the world.

Centrallia Experience:

“As a result of our experience attending Centrallia, we have signed several distribution agreements with firms we met during the event, allowing us to expand our reach into different parts of Canada. In addition, we developed some valuable contacts in other countries that are particularly relevant to our work in key industries including petroleum, mining, and concrete. would strongly recommend this event to any company wanting to establish long-term business relationships, especially those with an interest in expanding their export business.”

INFORMATION AND COMMUNICATIONS TECHNOLOGY (ICT)

Ron Lamoureux
President
Whirlwind
Media Group Inc.
Winnipeg,
Manitoba, Canada
www.whirlwindmediagroup.com

“Centrallia introduced us to potential new sources of supply that we would not have met otherwise

Centrallia Experience:

“Thanks to Centrallia we had the opportunity to introduce companies to our unique 3D animation solutions. Many saw how they could benefit from our innovative products and strategies to market their products and services. As a result, we secured a \$50,000 contract with a company in New Brunswick for an online 3D animation in tourism. We expect further developments nation-wide.”

MINING AND MINERALS

Darlene Labonville
Vice-President
of Operations
Discovery Drill
Beresford,
New Brunswick, Canada
www.discoverydrills.com/index.php

“We closed a deal worth \$500,000 at Centrallia.”

Discovery Drill Manufacturer has over 40 years experience in the diamond drilling industry. Their facility is fully equipped with state of the art welding and machining equipment.

Centrallia Experience:

“Centrallia provides a convenient central place to explore opportunities worldwide. Thanks to the event we were able to close a deal instantly worth more than half a million dollars. We also made connection with a translation firm that will help us with our international dealings with countries such as Russia.”

BUILDING PRODUCTS

Vince Reidy
CEO
USM Steel
Products Inc.
Winnipeg,
Manitoba,
Canada

“Centrallia saved us months of searching to connect to the companies we needed to meet.”

USM Steel Products Inc. is a corporate umbrella teaming with a collection of Manitoba manufacturers and suppliers to build steel transmission towers.

Centrallia Experience:

“Because of Centrallia I was able to find the last piece of the puzzle for the completion of our business strategy. By attending we saved months of searching and waiting, and we were able to easily identify the companies and speak directly with their principals.”

TRANSPORTATION AND LOGISTICS

Darryl Gershman
Vice President / Owner
G2 Logistics Inc.
Winnipeg,
Manitoba,
Canada
www.g2logistics.com

“We finally met the company we've been pursuing thanks to Centrallia.”

As a full service 3rd party logistics company, G2 Logistics Inc. Specializes in over-the-road and cross-border truckload shipments. Its services include truckload, less-than-truckload, refrigerated, protective and intermodal shipping. It also offers a full slate of warehousing services.

Centrallia Experience:

“Centrallia gave us access to customers and markets we did not have before. As a result of attending, we received three solid leads for new business and completed two Requests For Proposals. We were also finally able to develop a relationship with the key decision maker of a large supplier that I have been trying to meet for some time now. As a B2Be vent, Centrallia had the right people in attendance; people who are in a position to make and influence decisions. The entire event also had the right energy. Everyone came with positive attitudes and was there to grow their businesses. We did exactly that.”

LIFE SCIENCES AND BIOTECHNOLOGY INNOVATION AND TECHNOLOGY ENERGY AND ENVIRONMENTAL

Neil Krovats
President
Clearline

CENTRALLIA WINNIPEG MANITOBA CANADA 10-12 OCT 2012

**GLOBAL NETWORK TRADE & INVESTMENT REPRESENTATIVE
TO CENTRALLIA WINNIPEG MANITOBA CANADA 2012**

“There is something for everyone at Centrallia”

Global Network, Trade & Investment Representative for Manitoba Trade and Investment, Govt. of Manitoba, Canada is leading a Business delegation to Canada for a Global B2B Summit to be attended by 600 companies from over 40 countries including companies from India.

Centrallia is a biennial event which takes place in Winnipeg, Canada with a unique approach to international trade (exports, imports, joint venture, investments) for Companies looking to meet partners and grow their business Internationally. It provides the participants with 14 pre fixed & RELEVANT one to one meetings & more meetings/ factory visits which are fixed by Manitoba Trade & Investment. It also has other concurrent events like seminars, Round tables, exhibition etc. The participants come from all over the world. Check out : www.centrallia.com
Centrallia, a game changer for Indian companies is now scheduled from 10-12 Oct 2012 : <http://bit.ly/ONonfw> & has a

format of providing the companies a chance to select prospects for B2B meetings based on the profile of the prospects they are looking to meet with. It has an option to select companies based on various criteria such as Economic Region (like Asia Pacific, North American, South East Asia, Far East, South American etc), Country, City, Industry, Sector, Product, business & strategic interest and many more. Thus it provides a company with multiple options to select companies for the B2B meetings. The interesting part is that the companies also get requests from other companies for such meetings thus making it a wide option of companies to select from, for the B2B meetings.

A roadshow has been scheduled in Ahmedabad on 17 August 2012 & in Bangalore on 28 August with World Trade Centre of Bangalore to share the details of Centrallia & Manitoba with the industries from various sectors to join the global delegation for the B2B summit for

Centrallia 2012. The chief guest at the roadshow is Mr. Nicolas Lepage, Consul and Sr. Trade Commissioner at Consulate General of Canada, Mumbai & Mr. Kyle Nunas, Consul from Chennai office of High commission of Canada.

Centrallia 2012, is supported by Manitoba Trade & Investment which takes care of Manitoba's Business Interests around the world including India. Manitoba Trade and Investment is also providing support to the Indian delegation by providing them opportunities to connect with Manitoba Companies in the seminar at Winnipeg and through industry visits.

The days ahead to roadshow has generated great deal of interest amongst the industries from Gujarat, Karnataka & all over India. Industry is cordially invited to these road shows. Kindly mail your interest for participation at roadshow Jagat Shah Jagat@globaljagat.com
