Tryptophan Fluorescence Conference 2020: A new approach to water quality monitoring 23rd January 2020

Chelsea Technologies is pleased to announce the introduction of a new conference -Tryptophan Fluorescence 2020 on the 23rd January 2020. The conference offers the opportunity for practitioners and aquatic scientists to learn about the latest advancements in the exciting field of Tryptophan. Following 50 years of research on aquatic fluorescing organic matter in ground, surface and wastewater systems, attention turned to Tryptophan, a new and

promising approach to water quality monitoring in aquatic systems.

While initial research over a decade ago focussed on correlating Tryptophan Fluorescence to other water quality markers, such as Biological Oxygen Demand (BOD5), or as an indicator of sewage/faecal contamination in waterways, it is now increasingly being recognised as a valuable water quality parameter in its own right. Recent

research demonstrates that Tryptophan Fluorescence correlates to bacterial activity prior to cell growth.

The Tryptophan conference will feature talks from academic pioneers, cutting-edge researchers and leading industrialists, who together have driven world leading science and innovation that could lead to a paradigm shift in the way we monitor our aquatic systems.

IADA Makes Marked Progress in 2019

The International Aircraft Dealers Association (IADA) experienced significant progress in 2019 in several important areas, along with robust growth, as it advanced the organization's commitment to transparency and integrity in used aircraft transactions. Central to IADA's initiatives in 2019 was a focus on self-regulating the industry to make transactions more ethical and seamless for buyers and sellers.

"This past year, IADA instigated a heightened awareness of the importance of dealer and broker professionalism to the buyers and sellers of aircraft, which has already resulted in crisper ethical transactions across the industry," said IADA Executive Director Wayne Starling. "IADA's dealers are simply the best in the industry with a renewed emphasis on the

level of professionalism executed by the aircraft brokers that work for them."

Verified Search Portal Key among the strides made in 2019 was the creation and successful operation of AircraftExchange.com, an exclusive IADA online aircraft listing service that only features aircraft for sale that have been IADA validated, eliminating time consuming distractions from the buying and selling process. In less than a year since its inception, the company search portal handled more than \$3.8 billion in aircraft sales covering approximately 400 aircraft.

Currently the site lists hundreds of verified aircraft for sale listed exclusively by IADA dealers. Efforts are already underway in 2020 to expand the reach and accessibility of this aircraft search portal as it becomes the go-to source for the best aircraft on the market represented by the best dealers the industry can offer.

The portal targets high net worth individuals and C-suite executives. These transaction decision makers and influencers have found that the site offers a

ETIHAD GUEST PROGRAMME WELCOMES GULF AIR AS NEW AIRLINE PARTNER

Etihaad Guest, the award-winning loyalty programme for Etihad Airways, has inked a new partnership with Gulf Air, the national carrier of the Kingdom of Bahrain, further enhancing benefits for its members. The partnership expands on the codeshare agreement between the two airlines and provides further cooperation between the frequent flyer programmes, Etihad Guest and Falconflyer. This allows members to earn and redeem miles reciprocally on all flights across both networks. In both cases, the number of miles earned will depend upon the class of travel flown. Robin Kamark, Chief Commercial Officer for Etihad Aviation Group, said: "Our recently redesigned, upgraded, and relaunched

loyalty programme, Etihad Guest, welcomes another valued partner that offers our members even more opportunities to earn and redeem their miles. This new and exciting partnership helps us continuously evolve and improve our loyalty programme based on the needs of our guests and inline with our ever-changing industry." Vincent Coste, Chief Commercial Officer for Gulf Air said: "Gulf Air entered into a strategic codeshare partnership with Etihad Airways in March 2019. As an additional value proposition, we are delighted to build upon our successful partnership by further providing our Falconflyer members with the opportunity to earn and

spend their Gulf Air miles on the Etihad Airways' network." Gulf Air is an award-winning airline connecting its passengers to 48 destinations across the Gulf, Europe, Africa, Asia and India. This new partnership provides Gulf Air guests with access to a broader network of destinations, particularly to North America where they can take advantage of Etihad's USA pre-clearance, the only United States Customs and Border Protection facility in the Middle East. It allows US bound passengers to process all immigration, customs and agriculture inspections in Abu Dhabi before they board their flight to one of Etihad's four North American destinations.

ETIHAD AIRWAYS OPERATES ECO-FLIGHT TO BRUSSELS TO CELEBRATE ABU DHABI SUSTAINABILITY WEEK 2020

Etihad Airways will mark Abu Dhabi Sustainability Week 2020 by operating a special ‘eco-flight’ from Abu Dhabi to Brussels, featuring a range of initiatives designed to illustrate the airline’s broad commitment to sustainable practices in the air and on the ground. Flight EY 57, departing at 2.20am on Monday 13 January, will be operated with a Boeing 787 Dreamliner aircraft, the newest and most efficient type in the Etihad fleet, which consumes at least 15 per cent less fuel than any

aircraft type previously flown by the airline. The aircraft will follow an optimised flight route facilitated by the European airspace navigation service provider Eurocontrol to reduce fuel consumption and carbon emissions. A range of other initiatives will be undertaken before, during and after the flight to highlight incremental opportunities to reduce the airline’s impact on the environment. Tony Douglas, Group Chief Executive Officer, Etihad Aviation Group, said: “Sustainable practice

is a critical and continuing challenge for the air transport industry, which is striving to reduce carbon emissions and waste, while meeting soaring demand for air travel. It is also a key priority for the Emirate of Abu Dhabi, in which Etihad is a critical driver of both social and economic development. “This year’s national theme of the United Arab Emirates is ‘2020: Towards the next 50’. Etihad is committed to working continuously with

a range of partners as part of a broader national focus on environmental sustainability.”

At the core of its commitment to sustainable flying, Etihad Airways continues to invest in the latest generation, most fuel-efficient aircraft, increasing its fleet of Boeing 787 Dreamliners and preparing to induct three new types, the wide-bodied Airbus 350-1000 and Boeing 777-9, and the narrow-bodied Airbus A321neo.

Etihad Airways recently partnered with First Abu Dhabi Bank and Abu Dhabi Global Markets to become the first airline to secure commercial funding conditional upon compliance with the Sustainable Development Goals of the United Nations and is exploring options for similar funding of other initiatives. The airline has announced the Etihad Greenliner Programme, through which its entire fleet of Boeing 787s will be used as flying testbeds for a range of sustainability initiatives by Etihad and its industry partners. The first such partner is Boeing, which will join Etihad in a comprehensive research programme, beginning next week with delivery of a new ‘signature’ Boeing 787, specially-themed to highlight the sustainability partnership of the two companies.

Etihad is also a strong supporter of sustainable aviation fuels and continues to partner with providers including Abu Dhabi National Oil Company (ADNOC) and Tadweer (Abu Dhabi Waste Management Centre) on future fuel initiatives. Brussels ‘Ecoflight’ also include: Minimal single-use plastics

on board, including removal of plastic wrapping from blankets, headsets wrapped in paper (Economy) and velvet bags (Business), plastic-free amenity kits; lightweight metal cutlery (Sola Cutlery the Netherlands), § meals served in aluminium dishes, water served in recyclable tetrapak boxes, and hot beverage cups to be replaced with recyclable cups (Butterfly Cup); § Innovative wheat-based plates (Biotrem) for on-demand meals in Business;

§ Electric tractors to help ferry freight and luggage between the terminal and the aircraft in Abu Dhabi. The airline has just received the first 10 of 94 such vehicles, to be introduced during 2020;

§ Expedited taxi time from the Abu Dhabi terminal to the runway, to minimise or eliminate holding time with engines running;

§ En-route use of a range of fuel optimisation techniques, and;

§ The use of ground power at both Abu Dhabi and Brussels airport terminals instead of the aircraft’s own fuel-powered auxiliary power unit.

Brussels Airport is ‘climate neutral’ in its own carbon emissions through extensive initiatives including the use of electric buses for passenger transport and compressed natural gas for its own service vehicles, and is exploring options including the use of electric vehicles for aircraft push-back and taxi-out. Etihad is also implementing or considering sustainability initiatives including:

§ Waterless cleaning of aircraft exteriors, improving presentation and removing grease and dirt to ‘smooth’ the fuselage and minimise aerodynamic ‘drag’;

§ ‘Eco-wash’ cleaning of aircraft engines to help improve fuel efficiency and minimise emissions;

§ Other on-board initiatives designed to reduce aircraft weight or optimise performance, resulting in lower fuel consumption and emissions, and;

§ Reduction of single use plastics by 80 per cent by 2022.

Leading local eateries chosen to serve up varied menu of dishes to millions of international visitors at Expo 2020 Dubai

and the camel milk-inspired Majlis Café. Expo 2020 will also welcome the iconic The Irish Village, showcasing authentic Irish food and traditional entertainment.

Darren Tse, Director – Concessions and Programming, Commercial, Expo 2020 Dubai, said: “Expo 2020 will be a foodie destination in its own right and we urge visitors to bring a hefty appetite so they can explore the wonderful diversity and generous hospitality that the UAE is renowned for.

“Adding colour and texture to Expo’s offering, these homegrown brands will shine a light on Dubai’s fun and flourishing food scene, and inspire millions of visitors to Expo 2020 to try some tantalising flavours from here in the UAE and around the globe.”

Ali Al Rais, Founder of

Arabian Tea House, said: “I am very excited that Arabian Tea House, the first Emirati restaurant, will be showcased to millions of international visitors at The World’s Greatest Show. I believe that the best way to explore different cultures is through food, and Expo 2020 offers the perfect opportunity and platform to demonstrate Emirati hospitality.”

Colm McLoughlin, Vice Chairman and CEO of The Irish Village, said: “We are thrilled to be part of Expo 2020. The eyes of the world will be focused on the UAE when it hosts this global event. Dubai is known for its amazing infrastructure, market-leading events and technological innovations – without doubt, it will deliver a world-class event. The Irish Village is looking forward to serving its award-winning food and

offering an authentic Irish welcome to local, regional and overseas visitors.”

The much-loved local restaurants will be among the 200-plus food and beverage outlets at Expo 2020, spanning street food to celebrity chefs and offering more than 50 cuisines to suit every palate and budget.

From 20 October 2020 to 10 April 2021, Expo 2020 Dubai will welcome the world to celebrate creativity, innovation and culture. Its theme, ‘*Connecting minds, Creating the future*’, reflects Expo 2020’s vision for a better future for our planet. With 192 participating countries and an expected 25 million visits, it will be the largest event ever held in the Arab world.

from all stakeholders around the world. “This global summit on education constitutes an opportunity for global education actors to come together with a new way of thinking to tackle education challenges by putting forward radical but sustainable solutions, recognising that education is the fundamental pillar for addressing all other Global Goals effectively. “World leaders should seize this unique opportunity to deliver on their promise to increase support to education, as we aspire for this event to give hope and pave the way for vulnerable children and young people around the world to thrive in their future.”

Tackling global education challenges takes the collective power of all stakeholders, including governments, international organisations, NGOs and the private sector, which has a vital role in linking education to developing employment skills, fostering entrepreneurship and connecting talents to markets.

Held during Expo 2020 Dubai, which includes 192 participating countries, alongside educational establishments, multilateral organisations, businesses and millions of visitors, RewirEd will actively engage all stakeholders and give them a stage to share their best practices and knowledge for the future. The newly-formed Global Education Forum (GEF), which aims to ensure greater coherence and coordination in global education, will act as the high-level reference group for RewirEd and follow up on commitments and pledges made at the summit.

Audrey Azoulay, Director-General of UNESCO and Co-Chair of the GEF, said: “Without quality education and lifelong learning for all, we will not succeed in addressing the challenges of our world. This requires investment, coordination and multilateralism; rethinking what and how we learn, with those who are on the frontlines and will be the actors and citizens of tomorrow: teachers and young people.”

The summit is seen as offering an important platform for both dialogue and action as the world ramps up efforts to meet the SDGs by the 2030 deadline.

Former UK Prime Minister Rt Hon Gordon Brown, United Nations Special Envoy for Global Education and Co-Chair of the GEF, said: “RewirEd is a special and unique opportunity to refocus global attention towards achieving the Sustainable Development Goal 4 of inclusive and equitable quality education for all by 2030 — and mobilise the partnerships needed to put the global community on track to unleash all the talents of all young people.”

RewirEd is the latest in a series of announcements of world-class events to be held at DEC during Expo, including the next edition of the World Government Summit, and is testament to the UAE’s growing commitment to lead efforts to address the global learning crisis.

“We are in the middle of a learning crisis,” said UNICEF Executive Director Henrietta Fore. “Despite tremendous progress over the years, millions of children are not enrolled in school and millions more are not learning the basics. Education is truly the best ladder out of poverty, that’s why we must tackle this learning crisis by empowering children and young people with the skills they need to contribute to their communities and thrive in today’s economy.”

Julia Gillard, former Prime Minister of Australia and board chair of the Global Partnership for Education, said: “Since joining the Global Partnership for Education in 2018, the UAE has contributed to shaping the lives of millions of children in the world’s poorest countries by getting them in school and learning. We are grateful for their partnership and are committed to working together with the UAE and Dubai Cares towards the realisation of this important event.”

Reshaping the education conversation in pursuit of 2030 Global Goals: Expo 2020, Dubai Cares to host ground-breaking summit

· RewirEd, a collaboration with UAE government, will change attitudes to education

· Three-day event at DEC, co-located at Expo site, to convene over 3,000 participants

· High-level delegates will discuss financing, innovation plus youth and future skills – A ground-breaking global education summit to be held during Expo 2020 Dubai will reshape the global conversation on education, pushing the boundaries of current thinking to explore new approaches to global challenges.

RewirEd, a collaboration between Expo 2020 Dubai and Dubai Cares in close coordination with the UAE Ministry of Foreign Affairs and International Cooperation, will take place 17-19 March 2021 at Dubai Exhibition Centre (DEC), co-located at the Expo 2020 site.

Convening more than 3,000 participants and supported by governments, global education stakeholders, strategic partners and the private sector, it will discuss the future of education in the

global pursuit of the United Nations’ Sustainable Development Goals (SDGs) with a focus on three main issues in the education sector: financing, innovation as well as youth and future skills.

Her Excellency Reem Al Hashimy, Minister of State for International Cooperation, Director General, Expo 2020 Dubai Bureau, and Chairperson of Dubai Cares, said: “The UAE believes that investing in people’s welfare, knowledge, and capabilities produces the greatest dividends for individuals, families and communities as a whole.

“Education, which is the essence of human capital, drives our national priorities and is central to our international development strategy. We believe that now is the time to reshape the global conversation on education and this summit is the perfect platform to do so.” Through a mix of high-level plenaries, technical workshops, TED-style talks, networking spaces

and other side events, RewirEd will urge participants to rethink their attitudes towards education and explore entirely new approaches to global challenges, as well as offer participants a unique opportunity to agree on a shared vision and concrete action.

Marking the 10-year countdown to the deadline for the 2030 Global Agenda – a shared blueprint to eradicate poverty, fight inequalities and tackle climate change – RewirEd will serve as a timely reminder for countries to fast-track their efforts to achieve the SDG4 on education, while also showcasing success stories from around the world and exploring how these could be scaled up for enhanced global impact.

His Excellency Dr. Tariq Al Gurg, Chief Executive Officer of Dubai Cares, said: “The global education sector is going through a transformation where business as usual will no longer be enough, and this requires urgent attention

PLANET NINE (“P9PA”) ADDS GULFSTREAM GV TO MANAGED CHARTER FLEET

Planet Nine Private Air (“Planet 9”), the Van Nuys, California based private charter operator and aircraft management company, is pleased to be adding its tenth managed aircraft – an ultra-long-range Gulfstream GV (late Registration Number N176SM) - and the ninth on to its Part 135 AOC this month. It is being readied for bookings from the beginning of 2020.

The exceptionally outfitted aircraft, offering a 6,200 nm range (up to 13 hours’ flying time), is Planet 9’s third Gulfstream model, joining a G650 and G550. Its cabin is fitted with 14 luxury passenger seats, plus a dedicated rest area for crew. Inflight entertainment is accessible via high speed Air-Cell with passengers having the option to use their own devices or connect with the seven onboard Rosen slimline LCD monitors. With a significant baggage capacity of 226 cu ft the aircraft can accommodate up to 25 medium sized suitcases.

“The addition of this remarkably high spec Gulfstream GV is an excellent way to round off what has been

a successful year for us,” noted Matt Walter, Cofounder and Director of Business Development.

The Gulfstream GV will be based at Van Nuys Airport (VNY), CA, where Gulfstream Aerospace has just opened a dedicated MRO facility, accommodated in a 43,000 sq ft hangar and with a complementary US\$30 million parts and materials inventory.

This Fall Planet 9 was awarded with ARGUS Platinum safety certification, closely followed by the endorsement of IS-BAO Stage 1 (International Standard for Business Aircraft Operations (IS-BAO), duly satisfying IBAC it is consistently delivering high operational standards in all aspects of its business.

Previously, it obtained Wyvern Wingman status, under its onsite flight leader program.

Planet 9 operates (and owns) five Dassault Falcon 7Xs. It also has a Gulfstream G550, Gulfstream G650 and Bombardier Global 5000 available for third party charter – all under management for

private owners. P9PA flies corporations, family offices and UHNWs from the West and East Coasts of the USA to destinations including Europe, Russia and the Middle East.

After a successful debut at NBAA-BACE in Las Vegas in October, the company is showcasing at NBAA’s 2020 Schedulers and Dispatchers Conference during March 10-13 in Charlotte, NC.

Planet 9 is headquartered at the iconic Van Nuys Airport in Los Angeles, California and also maintains a presence in New York and London. The company is led by a highly experienced team of aviation professionals and its business plan utilizes a ‘floating fleet’ model. The efficiency it brings to its operations enables the business to pass on to its customers superior pricing. Planet 9 centres on the DassaultFalcon 7X fleet as its ‘owned’ aircraft of choice. Planet 9’s Falcons all feature sparkingly refurbished cabin interiors, including full Wi-Fi and IFE from Gogo/Swift Broadband.

ONTARIO LAUNCHES REDESIGNED TRAINING PROGRAM FOR CORRECTIONS OFFICERS

New curriculum includes focus on mental health training Hamilton — Ontario is launching its Corrections Foundational Training program today, a redesigned curriculum to educate and prepare the province’s incoming correctional officers. This new training will give staff the tools they need to plan and build a career in corrections, as well as meet the needs of a modern correctional system.

Corrections Foundational Training replaces the former Correctional Officer Training and Assessment program and offers an increased focus on key areas such as human

rights, mental health, health and safety, and teamwork. The new training program has been redesigned to include more job-specific case studies and scenario-based learning, as well as an emphasis on communication and de-escalation skills. The first group of students will begin the program today and develop skills over the next eight weeks.

“Staff safety and training is very important to me and to our government,” said Solicitor General Sylvia Jones. “This course will teach the skills our frontline officers need to succeed

in a modern corrections environment.”

Staff feedback was integral to the reshaping of the entire program, including its name. The new curriculum also addresses concerns raised about the previous training program by various stakeholders, reports, and coroners’ inquests. Corrections Foundational Training is one part of the government’s strategy to ensure frontline officers stay safe on the job and can meet day-to-day demands in the province’s institutions.

pg 1

sophisticated, cutting-edge user experience replete with unique proprietary features and an intuitive approach for buyers and sellers. Buyers can create a confidential dashboard with their preferred aircraft filtered by desired features, including aircraft class, age, and cost. Dealer Accreditations, Broker Certifications Also during 2019, IADA conceived and implemented the industry’s first aircraft dealer accreditation process and created a certification program for brokers that elevated the level of qualifications and professionalism available to aircraft buyers and sellers. IADA engaged Joseph Allan Aviation Consulting to oversee the extensive processes to accredit dealers and certify their brokers to ensure objectivity in meeting the highest industry standards required to become a member of the world’s most trusted organization of aircraft transaction experts. Similar stringent qualifications are now required of the industry experts who provide products and services to the industry in order for them to become verified affiliate members of the organization.

IADA Growth Following IADA’s fall meeting, the organization added several accredited aircraft dealers to its ranks and increased the number of certified aircraft brokers by 50. There are now 42 brokers in addition to five new aircraft manufacturers that are members of IADA.

Represented at the fall meeting were more than 60 additional companies that are verified providers of products and services to the pre-owned aircraft transaction industry. They brought the total companies in attendance at the fall meeting to more than 100. IADA’s aircraft dealers exhibited more than 10 pre-owned business jets at the 2019 NBAA Business Aviation Convention and Exhibition (NBAA-BACE) in Las Vegas, Nev. These aircraft joined dozens of others on display by new aircraft manufacturers that are also IADA-accredited aircraft dealers.

IADA Foundation Active in 2019 In 2019 the IADA foundation received approval from the Internal Revenue Service (IRS) as a tax-exempt 501 (c) (3) public charitable organization. The new designation by the IRS permits IADA to expand its initiatives inside and outside the industry while its business

IADACHairman Paul Kirby

aviation scholarships build a cadre of business aviation professionals for the future.

IADA Foundation by-laws prescribe that the organization can provide business aviation scholarships, education, learning, and leadership opportunities. The organization can work through other organizations, including the National Business Aviation Association (NBAA), University of Virginia Darden School of Business, and Georgia State University, in addition to funding speakers at IADA annual meetings.

In addition, IADA will be permitted to make contributions for aviation related disaster relief and aviation related philanthropic causes through the NBAA Humanitarian Emergency Response Operator Database, Angel Flight and Corporate Angel Network.

Leadership for 2020 and Beyond IADA has tapped into its membership for the overall governance to lead the organization into the next decade. IADA has named QS Partners Managing Partner Paul Kirby as the aircraft dealer organization’s new Chairman of the Board for 2020-2021. He replaces outgoing Chairman Brian Proctor, Mente Group President and Chief Executive Officer, who led the organization in 2018-2019.

IADACHairman Paul Kirby

Joining Kirby as an officer on the Board of Directors of the global aircraft transaction organization is Vice Chairman Peter Antonenko, Chief Operating Officer of Jetcraft. IADA’s Treasurer is David Monacell, Executive Vice President of CFS Jets. Joe Carfagna Jr., President of Leading Edge Aviation Solutions, is IADA’s Secretary.

Joining the officers as board members are Meisner Aircraft Vice President Chris Meisner, Guardian Jet Vice President of Sales Doc Dwyer, and Avpro Inc. Managing Partner Chris Ellis. IADA’s OEM President on the board is Michael Amalfitano, Sr., the President and CEO of Embraer Executive Jets.

GOVERNMENTS SUPPORTING ONTARIO'S BEEKEEPING SECTOR

Helping Ontario Beekeepers Address Bee Health Issues and Grow their Business

The governments of Canada and Ontario are supporting projects that will strengthen the health of managed honey bees and Ontario's beekeeping sector.

Since September 2019, the federal and provincial governments have committed more than \$221,000 to support 135 projects. These projects will help beekeepers make improvements to better manage pests, diseases and other stressors and grow their bee-related business. Factoring in project funding coming from the businesses themselves, this represents a joint investment of more than \$602,000 in the sector.

The funding has been provided through a targeted application intake under the Canadian Agricultural Partnership (the Partnership). Eligible applications are being received and assessed on a continuous basis, while funding is available.

Some projects supported through this targeted intake include:

- Equipment to help managed honey bees survive over the winter months
- Projects to detect and manage pests such as varroa mites
- Technology to enhance production
- Equipment to prepare operations for managing Small Hive Beetle
- Market and customer research to help increase sales.

"Many of our agricultural crops depend on the health and productivity of our pollinators, and this regional approach to strengthening Ontario's honey bee populations plays a vital

role in allowing our high-value crops to succeed," said the Honourable Marie-Claude Bibeau, federal Minister of Agriculture and Agri-Food.

"Honey bees play an essential role in Ontario's agricultural sector and in maintaining healthy ecosystems," said the Honourable Ernie Hardeman, Ontario Minister of Agriculture, Food and Rural Affairs. "That's why it's so important to support and sustain the health of our honey bees. This investment has helped over 135 beekeepers so far to equip themselves with better tools to prevent diseases, improve winter survival, adopt best management practices and grow their businesses." Since June 2018, both the federal and provincial governments have committed cost-share support to approximately 2,500 projects through the Partnership to help eligible Ontario farmers, processors, businesses and sector organizations innovate and grow.

QUICK FACTS

The targeted application intake to support managed bee health

- opened on September 3, 2019. Eligible applications are being received and assessed on a continuous basis, while funding is available.
- This initiative is delivered by the Ontario Soil and Crop Improvement Association (OSCIA), and supports specific beekeeping activities in two project categories:
 - o Advancing Beekeeper Business Capacity; and
 - o Honey Bee Health Management.

· OSCIA also delivers cost-share funding under the

Partnership for farmers and other businesses (plant health) – the next application intake for this group is from January 8 to January 29, 2020.

Program details, including how to apply, program guides, and application forms, can be found on the OSCIA website

- The health of honey bees is complex and influenced by several factors, including diseases, pests, genetics, environmental stressors and extreme weather.

- In addition to producing honey, Ontario-managed honey bees pollinate a wide range of crops, including apples, apricots, asparagus, blueberries, squash and canola, both within Ontario and in other provinces.

- Managed honey bees pollinate 80 per cent of all agricultural crops requiring insect pollination. They account for \$395 million in pollination services to Ontario farmers and contribute \$30 million a year in honey sales. Examples of projects supported through the Partnership since June 2018 include: implementation of technology to enhance food safety in processing plants; improving adoption of cover crop management to help reduce phosphorous entering the Lake Erie watershed; installation of equipment to improve biosecurity; technology solutions to improve labour productivity and marketing plans to help businesses to expand their markets.

The Canadian Agricultural Partnership is a five-year, \$3-billion commitment by Canada's federal, provincial and territorial governments that supports Canada's agri-food and agri-products sectors.

- In the 2017 to 2018 fiscal year, Canada invested close to \$113 million in international assistance for the Democratic Republic of Congo, mostly for health and humanitarian assistance.

- Canada has actively responded to humanitarian needs and the Ebola response in the Democratic Republic of Congo. Since 2000, Canada has contributed over \$111 million in international assistance to the Republic of Congo to help fight climate change and improve the country's agriculture, health and education sectors

STATEMENT ON 10TH ANNIVERSARY OF HAITI EARTHQUAKE

The Honourable François-Philippe Champagne, Minister of Foreign Affairs, and the Honourable Karina Gould, Minister of International Development, today issued the following statement:

"Today is a sombre occasion, as we remember the earthquake that devastated Haiti. Ten years have passed, and yet for many, the pain is still very real and the loss is deep. Mothers, fathers, children, partners and neighbours perished that day as hundreds of thousands of people lost their lives, including a number of Canadians.

"Ten years on, it is worth remembering that when Haitians and foreigners alike saw their neighbours, family and friends in need, they came together to lend a hand. As hard as rebuilding is, real lasting change is even harder to achieve. Yet those who remained and lived through the earthquake and reconstruction and who, today, still work hard for a better and peaceful Haiti remind us of what is good and show us that there is hope.

"In the face of hardship, our two nations and our people were brought closer together than ever. Solidarity, friendships and partnerships were expressed in many ways and still are. Canadians donated an unprecedented

\$220 million, matched by the government of Canada. From all corners of Canada, youth, doctors, nurses, engineers and teachers volunteered their time and expertise in Haiti. And through this journey of cooperation, new ties between our communities were born. "The aftermath of the earthquake that hit Haiti on January 12, 2010, is an inspiring story of commitment and compassion, and the Haitian diaspora in Canada played an important role in recovery and reconstruction efforts. Haitians who have since made Canada home have also been contributing tremendously to Canadian society, with exceptional individuals who are leaving their mark on governments, academia, industry, sports, arts and culture.

"Haiti is and remains a priority country for Canada. Our development and humanitarian assistance programming in the country is ongoing, with over 50 projects currently operational, including support for maternal and newborn health, nutrition, education, and sustainable agriculture.

"Today belongs to those who have lost loved ones and the bravery and resilience the Haitian people have shown against all odds. Canadians will continue to stand with Haiti as it rebuilds and addresses the challenges ahead."

ONTARIO'S OPEN FOR JOBS PLAN WORKING

Full-time employment growth in Canada driven by gains in Ontario

The government's plan to build Ontario together is working — creating more jobs, putting more money in people's pockets and building towards the future.

Statistics Canada announced this morning that employment in Ontario increased by 25,100 in December. Since June 2018, employment in Ontario has risen by 296,700.

"We are working to create an environment that attracts investment and encourages entrepreneurs to grow their businesses and create high-paying, good quality jobs in Ontario, and we are seeing the results of that," said Vic Fedeli, Minister of Economic Development, Job Creation and Trade.

Last month, the Ontario Legislature officially passed the Better for People, Smarter

for Business Act, 2019. The Act is part of the government's signature package to address red tape and modernize regulations to make life easier for people and business. The legislation will lower the cost of doing business by making it simpler and more cost-effective to comply with regulations — leading to more jobs, higher wages and more opportunities for hard-working families. Throughout 2020, the government is committed to continuing to find ways to reduce regulatory burden with legislative packages and several new initiatives.

"Ontario is heading in the right direction," said Fedeli. "By reducing small business taxes and cutting red tape, we are creating a more competitive business landscape and giving job-creators the tools they need

MINISTER GOULD TO TRAVEL TO REPUBLIC OF CONGO AND DEMOCRATIC REPUBLIC OF CONGO

Canada values its long-standing partnerships in Africa and remains committed to working with African partners to build a more prosperous, sustainable and peaceful world.

The Honourable Karina Gould, Minister of International Development, today announced she will travel to the Republic of Congo and the Democratic Republic of Congo from January 13 to 17, 2020.

The visit will be an opportunity for the Minister to meet with government representatives, partners and stakeholders to discuss common priorities, such as

humanitarian assistance, health, gender equality, education, climate change, and peace and security.

Quotes
"Canada has long-standing relationships with the Republic of Congo and the Democratic Republic of Congo. I look forward to working with my counterparts to discuss how together we can advance our shared priorities to foster prosperity that leaves no one behind."

-Karina Gould, Minister of International Development
Quick facts

ONTARIO TAKES ACTION TO ADDRESS SKILLED TRADES SHORTAGE

New Ads Showcase Skilled Trades as a Viable First Option

The Government of Ontario is taking action to attract more people to the skilled trades and employers to hire more apprentices. The province is facing a serious labour shortage which has the potential to get progressively worse. On any given day tens of thousands of jobs go unfilled and many of those are in the skilled trades.

As part of the government's Open for Business, Open for Jobs strategy Monte McNaughton, the Minister of Labour, Training and Skills Development, today launched a marketing campaign to highlight good-quality, well-paying and flexible careers in the trades, under the slogan 'Find a Career You Wouldn't Trade.'

"We need to do a better job at enticing young people and their parents to the skilled trades," said Minister McNaughton. "For too long, we haven't viewed these challenging positions as a viable first option. That needs to change and our Open for

Business, Open for Jobs strategy, including our new advertising campaign, will go a long way towards making the skilled trades more attractive."

The advertising campaign reflects the passion of real skilled tradespeople in their work environments. It features up-close footage of three skilled trades people with in-demand careers and high income potential: a tower crane operator, a steamfitter and an arborist.

The ads are just one part of the government's strategy to open up the skilled trades for young people and businesses. The government is also investing approximately \$75 million in three programs to expose high school students to the trades: \$12.7 million in the Ontario Youth Apprenticeship Program, \$42 million in the Specialist High Skills major program and \$20.8 million in a pre-apprenticeship program. "The reality is that the skilled trades offer exciting and challenging careers that often

require solid math and problem solving skills, and expose people to the latest technologies such as 3D printing and robotics", said Minister McNaughton. "When it comes to opportunity, to earning potential, to having a chance to start your own business, the skilled trades come out on top." Over the first nine months of 2019, Ontario employers had, on average, 204,000 job openings across all occupations and industries. Of these, 13,000 were in the construction sector.

People can view the ads for students and parents on ONgov Youtube. The ads will run digitally, in movie theatres and on Tim Hortons TV across the province.

QUICK FACTS

- Employers interested in taking on apprentices can register at Ontario.ca/HireAnApprentice
- For a full list of skilled trades in Ontario,

and agri-products sectors.

- o Environment stewardship to enhance water quality and soil health.

- o Protection and assurance to reinforce the foundation for public trust in the sector through improved assurance systems in food safety and plant and animal health.

- The governments have supported around 2,500 projects through the Partnership, including more

than 100 to help make Ontario's food processing industry more competitive by implementing new technology and systems that enhance food safety; advance manufacturing technology and labour productivity; and/or developing new products or processes designed to lead to significantly increased sales.

Ontario's agri-food sector supports more than 837,000 jobs and contributes more than \$47 billion towards the province's Gross Domestic

HELPING TO BRING ONTARIO AGRI-FOOD INNOVATIONS TO MARKET

Governments Invest in Enhancing Commercialization to Grow Ontario Agri-food Sector

The governments of Canada and Ontario are investing in a new project to further support innovation, commercialization and growth in the province's agri-food sector.

Ontario Agri-Food Technologies will receive up to \$100,000 in cost-share funding to design and launch a pilot project called the Commercial Deal Accelerator. This project will connect early-stage agribusinesses that have innovative ideas, with corporate investors to create commercialization activity. Funded through the Canadian Agricultural Partnership (the Partnership), this project is expected to and create sustainable, private revenue streams for agri-food and agri-tech entrepreneurs in Ontario

"This initiative will strengthen the sector's ability to quickly bring innovation to market," said the Honourable Marie-Claude Bibeau, federal Minister of Agriculture and Agri-Food. "Our Government is pleased to help ensure that Ontario's high quality agri-food products continue to drive our economy and create good

middle class jobs," said Marie-Claude Bibeau, Minister of Agriculture and Agri-Food Canada.

"Ontario's agri-food and agri-tech entrepreneurs have always been leaders who find success through innovation and collaboration," said the Honourable Ernie Hardeman, Ontario Minister of Agriculture, Food and Rural Affairs. "Our government is pleased to help them continue to be successful by supporting this exciting new project through the Partnership." "Innovation is key to all aspects of agriculture, including how we commercialize new technologies," said Tyler Whale, President, Ontario Agri-Food Technologies. "Importantly, the governments' support will help Ontario maintain its leadership role in the ag-tech ecosystem, thus supporting a primary economic driver of this province and country."

To date, both the federal and provincial governments have committed cost-share support to approximately 2,500 projects through the Partnership to help eligible Ontario farmers, processors, businesses and sector

organizations innovate and grow.

QUICK FACTS

- Funding for this project from the Partnership was approved through a merit-based application intake that took place from March 4 to April 5, 2019. Through this intake, the federal and provincial governments have committed more than \$2.5 million in cost-share funding towards 28 projects.

- In Ontario, cost-share programming for agriculture and value chain organizations is provided through the Piace to Grow Agri food Innovation Initiative. An application intake for this initiative is currently open, and will close on January 27, 2020. Program details including the program guide are available online.

- The Partnership is a five-year, \$3-billion commitment by Canada's federal, provincial and territorial governments that supports Canada's agri-food and agri-products sectors.

- Cost-share funding under the Partnership supports projects in the following priority areas:

- o Economic development in the agri-food

pg 5

to create more jobs and build a more prosperous Ontario."

QUICK FACTS

- Full-time employment growth in Canada driven by gains in Ontario. Employment in Ontario grew by 243,000 in 2019.

- Overall, Ontario's small businesses will save \$2.3 billion in 2020 through actions the government is taking such as cancelling the cap-and-trade carbon tax, keeping the minimum wage at \$ per hour, supporting Workplace Safety & Insurance Board premium reductions and delivering Ontario Corporate Income Tax relief through the Capital Cost Allowance.

- A number of significant government actions are lowering costs for businesses in Ontario, allowing them to grow and create jobs, and creating a competitive environment to attract new investment. It is estimated that Ontario business could save \$5.4 billion in 2020 through these action .

- Ontario has cut the small business Corporate Income Tax (CIT) rate by 8.7 per cent and reduced the rate to 3.2 per cent. Supporting small businesses is part of the government's plan to attract

investment and enable entrepreneurs and risk takers to grow their businesses and create high-paying, good quality jobs.

- Small businesses have benefited from accelerated write-offs of capital investments as well as the government's decision to not parallel a federal measure that would have increased taxes on some small businesses earning passive investment income.

- Ontario has launched the Job site challenge to identify shovel-ready mega sites where automakers or other advanced manufacturer could build a large plant that would create thousands of direct and supply-chain jobs.

- The government has launched a new Regional Development Program for eastern and southwestern Ontario. Businesses can get financial support through the Eastern Ontario Development Fund (EODF) and Southwestern Ontario Development Fund (SWODF) and guided access to a range of complementary services and supports.

Ontario will create the Premier's Advisory Council on Competitiveness to work with business leaders and workers across the province to

The world's most trusted aircraft dealers.

ADDRESS SKY VIEW BY EMAAR HOSPITALITY GROUP NOW OPEN

The stunning new Address Sky View by Emaar Hospitality Group located in the heart of Downtown Dubai will open its doors on 22 December 2019. Innovation and culinary finesse are elements that elevate each of the novel dining experiences at the hotel, while wellness is delivered holistically via spa and fitness experiences characterized by a new-age mindset. The latest addition to Emaar's growing portfolio of award-winning hotels in the region, Address Sky View is the perfect place to relax, dine, socialize and be seen. Minimalistic yet sophisticated, the interiors of the hotel feature the typically elegant Address Hotels + Resorts design which offers an inviting atmosphere for vacationers and businesspersons alike. From the quality of the materials to the composition of the colour schemes, each of the 169 rooms at Address Sky View have been designed with utmost care and dedication. Guests can choose to stay at the spectacular Presidential suite that exudes luxury in every sense, or pick between

the executive suites and premier rooms, both offering ultra-modern amenities and equally spectacular views. The waters of the Arabian Gulf beckon through floor-to-ceiling windows, while premium in-room comforts and matchless services are available around the clock, providing a sense of regal luxury to those seeking Dubai's finest hospitality experience. At Address Sky View, culinary opportunities of every flavour await, delivering immersive experiences of sensorial delight. Experience

gastronomic distinction across a remarkable array of restaurants and lounges, where enlivening surroundings and world-class service heighten the experience. Sample an appetizing selection of gourmet preparations from around the world at The Restaurant, centered around the theme of a stylish apartment. The Restaurant features modular spaces - from a living room, lounge, communal and individual dining tables, to workspaces, a media room, a kitchen and an outdoor terrace. For a more relaxed affair, feel refreshed

by afternoon tea, light bites and enthusiastic conversations in the exclusive environs of the Lobby Lounge, or catch the sunset at the Pool Lounge, where each evening is made special with the company of a live entertainment. Those seeking something more laidback can visit The Spa at Address Sky View, a calm and quiet space that offers enriching experiences for every mood and every occasion. On the list of options are bespoke experiences featuring avant-garde water treatments, an array of massage therapies, and beauty solutions combining the

curative properties of natural ingredients with intelligent techniques. Tranquility is achieved across spacious treatment rooms and an enchanting spa suite, as well as quiet relaxation areas including an outdoor cabana and vitality pool. The Fitness Centre extends the emphasis on wellness with a positive, invigorating atmosphere. In addition to advanced equipment that caters to a variety of training styles, the impressive facility also features a private studio for personalized routines with professional trainers, a serene studio, and an immaculate zen area. The two resplendent towers at Address Sky View compose a duet of style and splendor amidst the Dubai skyline, setting a new standard for premium luxury in the scenic centre of Downtown Dubai. Bringing together culinary flair from around the world, paired with stellar recreational facilities and a warm, hospitable atmosphere, Address Sky View promises an experience to remember.

PCMA, BUSINESS EVENTS SARAWAK TO ELEVATE POWER OF BUSINESS EVENTS IN MALAYSIA

PCMA, the world's largest platform for business events professionals, and Business Events Sarawak (BESarawak), by Sarawak Convention Bureau, signed today a Memorandum of Understanding (MOU) to develop a partnership that provides education, business development opportunities and increases awareness of the transformative power of business events. The signing ceremony with PCMA and Sarawak, Malaysia delegates occurred during Convening Leaders, PCMA's signature annual event, in San Francisco's Moscone Center. The MOU is effectively immediately through Dec. 31, 2022. "This agreement with Business Events Sarawak is completely aligned with PCMA's vision and growth, as both organizations share the same goal — to demonstrate how business events transform societies, businesses and communities," said Sherrif Karamat, CAE, PCMA president and CEO. "We look forward to collaborating with Business Events Sarawak as they elevate the influence of

business events and Malaysia's profile as a destination."

The MOU calls for business events training and education to help showcase Sarawak's unique value proposition to international associations and corporate markets in addition to developing the local meetings industry. "Sarawak has already begun its quest to position business events as economic and community game-changers in the region through the Legacy Impact Programme" said The Honorable Datuk Haji Abdul Karim Rahman Hamzah, Minister of Tourism, Arts and Culture, Sarawak and Minister of Youth and Sports, Sarawak. "The program is focused on four pillars of legacies which are Advancing the Field, Community Benefits, Economic Outcome and Public Policy; driven by 27 drivers." BESarawak, Malaysia's pioneer business events bureau, hosted a distinct gathering of business events strategists, industry leaders and government officials from

Asia Pacific at Convening Leaders to network with some of the world's most prominent figures in the industry and discuss current growth strategies and disruptors.

The Sarawak delegation — part of a record number of Asia-Pacific participants at Convening Leaders — included The Honorable Datuk Haji Abdul Karim Rahman Hamzah, Minister of Tourism, Arts and Culture, Sarawak and Minister of Youth and Sports, Sarawak; Hii Chang Kee, Permanent Secretary, Ministry of Tourism, Arts and Culture, Sarawak; Tan Sri Dato Sri Dr. Muhammad Leo Toyad, Chairman, Business Events Sarawak and Amelia Roziman, Chief Operating Officer, Business Events Sarawak. Other participants included representatives from Borneo Convention Centre Kuching (BCKK), Techno Expo, Events Horizon, Conference People, CPH Travel, Sarawak Tropical Peat Research Institute (TROPI), Sarawak Forestry Corporation and the

ABU DHABI CONVENTION & EXHIBITION BUREAU SIGNS STRATEGIC AGREEMENT WITH PCMA

Abu Dhabi Convention & Exhibition Bureau (ADCEB) and PCMA have signed a strategic training and partnership agreement at the PCMA Convening Leaders 2020 conference, which is held this week in San Francisco, USA.

As part of the agreement, PCMA will support ADCEB, which is part of the Department of Culture and Tourism – Abu Dhabi (DCT Abu Dhabi), in three key areas, including Convention Services Manager Training (CSM training) for elected event executives from the Emirate. The agreement also entails hosting an Abu Dhabi Advisory Summit, which is set to take place later this year, as well as the introduction of a series of educational programmes and membership to help build the knowledge base and event management capabilities within the MICE industry in Abu Dhabi.

The agreement enhances Abu Dhabi's position within the international association sector as it works to attract more business to the emirate. The programme will also act as an

educational platform for the Bureau's stakeholders to develop a deeper knowledge of the MICE industry and the essentials of delivering world-class events.

Mubarak Al Shamisi, Director of ADCEB, said: "Abu Dhabi is strengthening its industry capabilities to serve the global community of business event strategists, planners and organisers through education and knowledge sharing, and partnering with an esteemed global entity such as PCMA is key to achieving that. We are very excited about this partnership and look forward to the successes it will bring in 2020 and beyond."

Sherrif Karamat, CAE, PCMA President and CEO, said: "Abu Dhabi and PCMA are perfectly aligned as we both recognise that the business events industry can play an instrumental role in economic and social transformation. Abu Dhabi also realises that this requires the development of their most important asset — their citizens and this is where PCMA can bring tremendous value as the global leader in the business events industry."

WORLD RUGBY AND PLAYERS STRENGTHEN PARTNERSHIP

- Sixth meeting of the Rugby Athletes' Commission takes place in Cape Town
- Athlete representatives discuss key issues facing players
- Actions agreed for 2020 building on new and existing projects

Ensuring the voice of the players continues to be at the heart of rugby's global decision-making processes as rugby accelerates into a decade of growth and prosperity was the key theme of a productive and positive Rugby Athlete's Commission (RAC) meeting in Cape Town today.

A key partnership between World Rugby and International Rugby Players (IRP) and chaired by Rugby Committee Chairman John Jeffrey, the meeting brought together leading current and former men's and women's sevens and 15s players who represent IRP and members of World Rugby's executive, including Chief Executive Brett Gosper, to discuss:

- Latest game developments on and off the field, including key player welfare and injury research and law trials
- Ongoing RAC collaboration projects including agent registration, player personal development programmes (which benefit and protect the player) and the launched Mindset and Player Load programmes, which are already benefiting players around the world
- Preparation for the Tokyo 2020 Olympic Games
- Growth opportunities for the women's game and emerging rugby nations
- World Rugby's strategic plan development and future

collaborations

The meeting concluded with a clear set of agreed actions that will propel player-centric issues to the fore heading into a new decade:

- Continued collaboration on sevens tournament formats, including establishment of a multi-
 - stakeholder working group
 - Support for further player welfare initiatives including concussion education
 - Commitment to develop and support player development and mental health support
 - Further collaboration regarding the women's game including competition structures and commercial growth
 - Promotion of minimum standards relating to player contracts
 - Encourage unions to develop organised player bodies where they do not exist
 - Discussion on key principles around future global calendar planning

Jeffrey said: "The Rugby Athletes' Commission plays a key role in ensuring that players have a face-to-face opportunity to engage with World Rugby and IRP and that their views help inform the consultation and decision-making processes. The progress made in 2018, building on the outcomes of previous meetings demonstrates the benefits of collaboration in achieving shared objectives for the betterment of athletes and the game."

"The Rugby Athletes' Commission has an important part to play in athlete engagement and is strengthened by further athlete

involvement in other areas – including the Rugby Committee, medical, law and professional game committees and working groups – all of which contribute in a significant and meaningful way on matters relating to the playing of the game."

International Rugby Players CEO Omar Hassanein added: "Our players want to make sure they have a strong and impactful voice in the game and play their full role in the future growth and success of the sport."

"The Rugby Athletes' Commission is a key forum in that mission and an opportunity for us to express our views, discuss areas of collaboration and tackle challenges and opportunities in a spirit of partnership."

Attendees: John Jeffrey (World Rugby Council Member, RAC Chairman), Brett Gosper (World Rugby CEO), Omar Hassanein (IRP CEO), Rachael Burford (IRP, England), Sene Naoupu (IRP, Ireland), Charlie Hayter (IRP, England), Rory Best (IRP, Ireland), Blaine Scully (IRP, USA), Harry Jones (IRP, Canada), Oupa Mohoje (IRP, South Africa), Humphrey Kayange (IRP, Kenya), Jacques Nienaber (Coach, South Africa), Jean de Villiers (IRP, South Africa), Conrad Smith (IRP), David Quinlan (IRP), Emma Terho (IOC Athletes' Commission (by phone)), David Carrigy (World Rugby), Mark Egan (World Rugby), Mark Harrington (World Rugby), Ross Tucker (Consultant, World Rugby), Jaime McKeown (World Rugby)

GET YOUR HANDS ON YOUR NEW RIDE

The Motorcycle Show – Calgary presented by NFP is fast approaching. It will showcase the new line-up of 2020 models of motorcycles, scooters, ATVs and side-by-sides. The Show runs January 10-12th at the BMO Centre. "Motorcycle enthusiasts are an extremely diverse group of individuals," says Laurie Paetz, Show Manager, "they vary a great deal in age, riding style, why they ride, manufacturer preference, and what they choose to ride is often more of a reflection of their personality and lifestyle than anything else."

With so many bikes to choose from, the following highlights some of the most anticipated new releases in 2020.

Three Wheelers
Three wheelers are the industry's response to the shifting tastes of riders. They are extremely popular among the baby boomers due to the fact that they are super steady and provide more storage. They offer the exhilaration of a standard motorcycle without the physical strain that can come with riding two wheels. The Can-Am Spyder RT, the Harley-Davidson® Tri Glide Ultra and the Piaggio MP3 are excellent options for those considering something on three wheels.

Dual Sport & Adventure Bikes
Whether you travel on the highways, venture off road or just need to get around town dual sport bikes are the true all-purpose machine. If you have always dreamed of riding to Alaska or Tuktoyaktuk this is the type of bike you want. They have an upright riding position and comfortable ergos plus their long travel suspension provides a super smooth ride on super slab, back roads or off road. For those that are in the market for something that fits their adventurous lifestyle the new 2020 Suzuki V-Strom 1050, Honda Africa Twin 1100, Triumph Tiger 900, BMW F 900 XR and Yamaha Ténéré 700 will provide ample

opportunities to explore. If you are looking for something a little smaller to handle, check out the new KTM 390 Adventure, Moto Guzzi V85TT Travel, or the Kawasaki KLX230 & KLX230 ABS.

Electric Bikes
Although still in the infancy stages, the electric bike category is extremely broad. Ranging from pint sized off-road motorcycles for children to high end super bikes, and everything in between. Electric bikes are gaining popularity and will continue to grow in the years to come. The Harley-Davidson LiveWire™ and the KTM SX-E 5 are two of the electric bikes that will be displayed at the Show.

Cruisers
There is a definite nostalgic feeling when it comes to cruisers. Their lower seat height, higher handlebars and a more laid back riding position lend themselves to long rides on the open road in both style and comfort. These bikes are a true reflection of those who ride them and there is an excellent selection at the show to choose from including the Honda Rebel 500, the Indian Scout, the Harley-Davidson Low Rider™ & the 2500cc Triumph Rocket 3.

Sport Bikes
If adrenaline is your friend and you have a need for speed you will want a super sport bike in your garage. They are light weight, nimble, and optimized for acceleration, speed, and cornering on pavement. These bikes are at home on the street or can be taken to the track for the ultimate rush. The 2021 Honda CBR1000RR-R Fireblade SP, the supercharged Kawasaki Ninja 1000 SX, and Yamaha YZF-R1M are some the sport bikes on the show floor.

For those that seek exhilaration and a thrilling ride of a super sport bike but want a little more upright ergos you will want to check out the naked sport bikes or "streetfighters".
