## Air Canada and Emirates Form Strategic Partnership

Air Canada and Emirates today announced the signing of a strategic partnership agreement that will create more options for customers when travelling on the carriers' networks while also enhancing the customer experience throughout the journey.

Air Canada and Emirates intend to establish a codeshare relationship later in 2022 that will offer enhanced consumer travel choices for Air Canada customers to travel to the United Arab Emirates and to destinations beyond Dubai. Emirates customers will also enjoy an enhanced travel experience when travelling to Toronto or to key destinations across the Air Canada network. Customers will have the ability to book connecting travel between both airlines' networks with the ease of a single ticket, seamless connectivity at the carriers' respective global hubs and baggage transfers to their final destinations. "As we continue pursuing our strategy of expanding our global reach in response to growing opportunities in VFR markets (Visiting Friends and Relatives) that serve Canada's large multicultural communities, we are very pleased to form a

strategic partnership with Emirates, a highly respected flag carrier of the United Arab Emirates with a hub in the vibrant city of Dubai. This strategic agreement will create network synergies, and Air Canada customers will have additional, convenient options when travelling between Canada and the United Arab Emirates as well as destinations beyond Dubai" said Michael Rousseau, President and Chief Executive Officer at Air Canada. "We look forward to introducing Air Canada codeshare service on key Emirates flights, as well as adding the EK code on select Air Canada flights, and welcoming Emirates

customers on our services later this year." Sir Tim Clark, President Emirates Airline said: "This is a significant partnership that will enable our customers access to even more destinations in Canada and the Americas, via our Toronto and US gateways. It also opens up many new route combinations for travelers across Emirates' and Air Canada's extensive networks in the Americas, the Middle East, Africa and Asia. We are pleased to partner with Air Canada, one of North America's most established airlines and Canada's flag carrier and we look forward to jointly progressing on various areas to provide even better

## ETIHAD AIRWAYS PARTNERS WITH JUNK KOUTURE

The World Final of Junk Kouture 2022 hosted at Etihad Arena on 11 January 2023

Etihad Airways, the national carrier of the United Arab Emirates announces its partnership with Junk Kouture, the world's largest sustainable youth fashion competition.

Junk Kouture's partnership with Etihad Airways will see an exciting offering across multiple

communication channels, joining the sustainability goals and efforts of both companies. As part of the agreement, Etihad will provide flights to all competing teams in Junk Kouture across five international markets. Locally, Etihad will donate obsolete aircraft items such as old seat covers, carpets, cabin crew uniforms and life vests to UAE schools participating in Junk Kouture for upcycling and use in their student's designs. A

range of social media and content offerings will be developed and produced amplifying the message of grass roots change.

The partnership is announced in the lead up to the first ever World Final of Junk Kouture at Etihad Arena, Yas Island, Abu Dhabi scheduled for 11 January 2023. The iconic gold venue will host the high-octane event celebrating youth

## ETIHAD AIRWAYS ANNOUNCES FIRST NFT COLLECTION: 'EY-ZERO1'

NFT collection of 3D aircraft models will provide owners with benefits and support procurement of sustainable fuel

Etihad Airways, the national airline of the United Arab Emirates, today announced the upcoming release of the airline's first non-fungible token (NFT) collection, 'EY-ZERO1'.

The utility-driven series features ten highly detailed 3D aircraft models, each one showcasing a unique Etihad Airways Boeing 787 Dreamliner livery. A total of 2003 limited-edition collectibles, symbolising the year when Etihad Airways was established, will go on

sale at 6pm UAE time on 21 July. The collectibles include Etihad's Manchester City FC and Greenliner-themed aircraft, among others.

"We're excited to launch our first NFT collection, EY-ZERO1, which not only offers collectors, aviation enthusiasts and travellers a unique work of art, but provides real-world travel and lifestyle benefits with Etihad Airways," said Tony Douglas, Group Chief Executive Officer, Etihad Aviation Group.

"NFTs and other metaverse technologies are revolutionising the digital economy, and we are proud to be one of the first airlines in the world to explore their

potential to provide additional utility for our customers."

Purchasing an NFT will give owners immediate Etihad Guest Silver tier membership for one year, with 10 lucky NFT holders winning complimentary flight tickets with Etihad. NFT owners will also be given advance access to upcoming NFT collections as well as future metaverse products which the airline has planned as part of its Web3 strategy.

For more information, follow Etihad's dedicated NFT Twitter account (@etihadNFT) and Discord channel (<https://discord.gg/etihad>).

## ETIHAD LAUNCHES FIVE SUMMER SERVICES, GROWING NETWORK TO OVER 70 DESTINATIONS

Seasonal flights take off to five summer hotspots including Nice on the Côte d'Azur. Etihad Airways, the national airline of the UAE, is launching five seasonal routes this week that connect Abu Dhabi to popular summer hotspots across Europe and the Indian Ocean.

Three seasonal services took off this morning, connecting Abu Dhabi to Nice on the famous French Côte d'Azur, the historic city of Heraklion on the Greek island of Crete, and Malaga in Spain. All three services are set to be operated on a twice-per-week basis.

Etihad's summer schedule will get a further boost in the next two days with the establishment of routes to the islands of Santorini in Greece and Zanzibar in Tanzania, both operating three times weekly.

Captain Driss Moussaoui and First Officer Sara Al Naqbi in the cockpit

“Summer adventurers have plenty to discover with Etihad Airways this year,” said Martin Drew, Senior Vice President Global Sales. “From the stunning beaches of the Costa del Sol to the picture-perfect French Riviera, Etihad’s summer network offers even more opportunities

to get away and experience the wonder of travel in 2022.”

To celebrate these route launches, guests on the inaugural flights are being presented with an exclusive Etihad wellbeing kit to kickstart their summer holiday.

From left to right: Mohamed Boutiche, Country Manager France at Etihad Airways; Grégoire Becouze Regional General Manager Europe at Etihad Airways; Dr Lateefa Alsada, Head of Consular Affairs and Nationals Services at the UAE embassy in France; Franek Goldnadel, Chairman of the Board of Aéroports de la Côte d'Azur; Hélène Navarro, Director of Communication at Nice Côte d'Azur Airport; and Isabelle Baumelle, Chief Operating Officer at Nice Côte d'Azur Airport celebrate the arrival of Etihad Airways' first flight to Nice

### Etihad Airways' seasonal summer routes

Destination	Operating dates	Aircraft	Frequencies
Crete	15 June - 17 September	A320	2 flights per week
Malaga	15 June - 18 September	B787	2 flights per week
Nice	15 June - 18 September	B787	2 flights per week
Santorini	16 June - 18 September	A320	3 flights per week
Zanzibar	17 June - 18 September	A320	3 flights per week

About Air Canada

Air Canada is Canada's largest airline, the country's flag carrier and a founding member of Star Alliance, the world's most

comprehensive air transportation network celebrating its 25th anniversary in 2022. Air Canada provides scheduled passenger service directly to 51 airports in Canada, 51 in the United States and 86 internationally. It is the only international network carrier in North America to receive a Four-Star ranking from Skytrax, which in 2021 gave Air Canada awards for the Best Airline Staff in North America, Best Airline Staff in Canada, Best Business Class Lounge in North America, and an excellence award for managing COVID-19. Through its leading travel loyalty Aeroplan program, Air Canada offers the ability to earn or redeem points on the world's largest airline partner network of 45 airlines, plus through an extensive range of merchandise, hotel and car rental rewards. Its freight division, Air Canada Cargo, provides air freight lift and connectivity to hundreds of destinations across six continents using Air Canada's passenger flights and cargo-only flights with its fleet of Boeing 767-300 freighters. Air Canada has committed to a net zero emissions goal from all global operations by 2050.

About Emirates

Emirates is the award-winning global airline that serves over 130 cities on six continents through its efficient hub in Dubai. It operates the world's largest fleet of modern wide-body Airbus A380 and Boeing 777 aircraft that are fitted out with the latest comforts in the sky. Emirates has won numerous accolades for excellence across its operations, including being named World Class Airline at The APEX Official Airline Ratings™ awards, which stands at the pinnacle of all APEX Passenger Choice awards, and being rated Five Star Airline by APEX. ## International Aircraft Dealers Association Continues to Grow its Membership

The International Aircraft Dealers Association (IADA) has grown in both size and effectiveness over the past 18 months. Now in its fourth year since rebranding as an international organization in 2018, IADA has reached new heights in overall membership.

Spurred on by attractive programs and its members' professionalism in an erratic airplane marketplace, during the past 18 months IADA has added an international OEM and signed up six new IADA-Accredited dealer members and 21 Verified Products and Services members. IADA's roster now includes seven OEMs, 50 dealers, and 76 Products and Services members. For a complete list of all IADA members go to International Aircraft Dealers Association | IADA.

Code of Ethics, Online Marketplace  
 "Clearly, IADA's fundamental insistence on a strict Code of Ethics and the organization's exclusive and sophisticated AircraftExchange, our online marketplace, have been strong catalysts for the growth of the organization and our effectiveness," said IADA Executive Director Wayne Starling. "In addition, our accreditation and certification processes, regulatory processes and the IADA Foundation, all have also greatly contributed to the organization's growth and industry presence," he added. Formed more than 30 years ago, IADA promotes

IADA's verified Products and Service members handle a wide range of transactional and aircraft support categories, including:

Acquisition and Brokerage Services	Aircraft Leasing
Aircraft Sales	Analytics
Consultation Services	Co-Ownership Services
Custom Brokerage	Education & Training
Escrow Services	Financing and Leasing
Flight Planning	Fractional Aircraft Programs
Fuel	Hourly Cost Maintenance Programs
Industry Publications	Insurance
Legal, Tax & Title	Maintenance & Overhaul Services
Maintenance Tracking	Management and Charter
Manuals	Operations & Management Consulting
Owner Trusts Services	Valuations

growth and public understanding of the aircraft resale industry. The organization offers the world's only ethics-based accreditation program for dealers and the only certification program for individual brokers. IADA's Products and Services members undergo and pass a rigorous verification process that ensures ethical compliance and professional expertise.

Strong OEM Representation  
 With the addition in 2021 of Airbus Corporate Jets as an OEM member of IADA, there are now seven OEMs participating in the activities of the organization. The other OEMs include Bombardier, Dassault Falcon Jet Corp., Embraer Executive Jets, Gulfstream Aerospace Corporation, Honda Aircraft Company and Textron Aviation. IADA's roster of accredited dealers reads like a Who's Who of leading business aircraft transaction experts, with experience throughout the world. They employ

certified aircraft brokers located across North and South America, Europe, Asia, Africa, Europe and Australia

A popular product of IADA is its AircraftExchange, the only aircraft listing site where every aircraft listed for sale is represented by an accredited dealer. To earn accreditation, IADA dealers must meet strenuous accreditation standards, receive sponsorship from current IADA-Accredited Aircraft Dealers and undergo a formal review process. IADA-Accredited Aircraft Dealers agree to adhere to a strict code of ethics that ensures fully transparent transactions between IADA dealers and aircraft buyers. The AircraftExchange search portal enables organizations to create a confidential dashboard of business jets for sale, filtered based on their features and amenities, aircraft class, age, and price. Users can browse through data-rich listings for all categories of business aircraft. For more information about AircraftExchange, go to Aircraft For Sale Exclusively by IADA | AircraftExchange.

from pg 1

creativity, sustainability, performance and self-expression. Sixty designs, including 10 from the UAE, and their teams from New York, London, Milan, Paris and Dublin will be flown to Abu Dhabi by Etihad Airways to compete for the title of World Designer of the Year.

Supporting Junk Kouture as an events partner at the Abu Dhabi City Final in Manarat Al Saadiyat on Saadiyat Island and the World Final at the Etihad Arena on Yas Island is Miral, Abu Dhabi's leading creator of immersive destinations and experiences. With the support of Miral and Etihad Airways, all international participants and supporters travelling to the World Final of Junk Kouture will be immersed in the culture and entertainment Abu Dhabi has to offer.

Curated to shine a light on the importance of climate change through creativity, Junk Kouture challenges young people to make striking and imaginative outfits out of 100% recyclable materials and items that are often unfairly labelled as waste. Etihad Airways are also using innovation and creativity to transform the future of flying and they are leading the industry in decarbonising aviation. The airline is reducing the impact of aviation on the environment through initiatives such as the Greenliner programme, research into sustainable aviation fuels and commitment to reduce single-use plastics. This aligns with the young participants of Junk Kouture using their innovation to create fashion from materials such as orange peel, coffee capsules, Pampas grass and single use plastic bags therefore becoming the future generation of circular engineers.

Amina Taher, Vice President Brand, Marketing and Sponsorship at Etihad Airways, said: "We are

delighted to announce our partnership with Junk Kouture which reinforces our position as a leader in sustainability. As the UAE's national airline, we are proud to extend our own sustainability ambitions to empower our partners to contribute in their own way. In the past, we've successfully partnered with artists to recycle aircraft parts into sculptures, and we're excited about this latest journey into the world of fashion."

Troy Armour CEO of Junk Kouture said: "We absolutely recognise and commend the tremendous efforts Etihad Airways are making towards sustainability and we've been blown away by their passion of what Junk Kouture is doing at grass roots level. They understand and want to support our drive for change in sustainability through creativity and innovation in young people, creating the circular engineers of tomorrow. Partnering with a global brand like Etihad Airways who aligns with our ethos and values, cements our mission at Junk Kouture and we look forward to having the team at Etihad Airways and Miral alongside us to make it happen!"

With the remaining five City Finals of Junk Kouture set to take place this autumn, including the Abu Dhabi City Final hosted in Manarat Al Saadiyat on Saadiyat Island, student participants from each city will battle it out for their place and a golden ticket presented by Etihad Airways on the night of the Junk Kouture World Final in the Etihad Arena on January 11, 2023. A night of creativity, performance and talent awaits. A celebration of young people and the circular engineers of tomorrow.

## IADA Business Aviation Scholarship Applications Open Through Sept. 1

The International Aircraft Dealers Association (IADA) is accepting student applications for business aviation scholarships through Sept. 1, 2022. Grants funded by the IADA Foundation range from \$1,000 to \$5,000.

The IADA Foundation, a tax-exempt 501 (c) (3) public charitable organization, has arranged with 21 public and private colleges and universities to offer individual scholarships to undergraduate and graduate students seeking further education leading to professions within the business aviation industry.

“The IADA business aviation scholarship program benefits university students seeking a career in business aviation, specifically within corporate aircraft sales, marketing, finance, legal, and insurance disciplines,” said IADA Executive Director Wayne Starling. “Students can apply online.”

Those interested in applying can find the application at [www.IADA.aero](http://www.IADA.aero). Participating schools have been assigned a keycode

specific to their college or university. Applicants must obtain the code from their school’s financial aid office to access the application.

Students can use the code to login to [www.IADA.aero](http://www.IADA.aero), complete the online application, upload transcripts and submit an essay about their passion, interests or inspiration for aviation.

Applicants are selected based on a points system, with the highest-ranking students across multiple schools awarded scholarships.

Scholarship Qualifications This award is available to full-time, undergraduate (freshman through senior) students (taking a minimum of 12 credit hours per semester), as well as graduate students.

Applicants must have a minimum 3.0 cumulative GPA on a 4.0 grade scale (high school GPA for freshman applicants).

The IADA board approves scholarships and advises selected applicants through their university’s financial aid office no later than Nov. 30.

Participating schools include:

- Auburn University
- Broward College
- Charleston Southern University
- Colorado Northwestern Community College
- Embry Riddle Aeronautical University
- Florida Institute of Technology (Florida Tech)
- Georgia Institute of Technology (Georgia Tech)
- Indiana State University
- Kansas State University Salina Aerospace and Technology
- Louisiana Tech University
- Metropolitan State University of Denver
- Middle Georgia State University
- Middle Tennessee State University
- Oklahoma State University
- Purdue University
- Saint Louis University, Parks College of Engineering, Aviation and Technology
- University of Nebraska Omaha
- University of North Dakota, John D. Odegard School of Aerospace Sciences
- University of Oklahoma
- University of North Texas – Denton
- Vaughn College of Aeronautics and Technology

If a student in an aviation program does not see their school listed, they should ask the school’s financial aid office to contact IADA Managing Director Erika Ingle at 866-284-4744.

## Ontarians Aged 18+ Eligible for Second Booster Shot

Free rapid antigen tests extended to December 31, 2022, including for general public July 13, 2022 Ministry of Health The Ontario government, in consultation with the Chief Medical Officer of Health, is expanding eligibility for second booster doses to Ontarians aged 18 and over in order to provide an extra layer of protection to those who may need it. Starting on Thursday, July 14 at 8:00 a.m., eligible individuals can book an appointment through the COVID-19 vaccination portal or by calling the Provincial Vaccine Contact Centre at 1-833-943-3900. Eligible individuals can also book an appointment directly through public health units that use their own booking systems, through Indigenous vaccination clinics and participating pharmacies. Appointments are based on availability, which may vary by region.

“As we continue to manage COVID-19 for the long term, we’re expanding second booster doses and extending the availability of free rapid antigen tests to give people the tools they need to stay safe and to ensure Ontario stays open,” said Sylvia Jones, Deputy Premier and Minister of Health. “Vaccines continue to be our best defence against COVID-19 and protecting our hospital capacity for those who need it most.” Second booster doses are being offered at an interval of five months after an individual receives their first booster dose. While most individuals aged 18 to 59 years old will continue to have strong protection more than six months after their first booster dose, expanding second booster dose eligibility will ensure that Ontarians can make an informed decision based on their personal circumstances. A new bivalent COVID-19 vaccine is anticipated to be approved by Health Canada this fall, which may offer more targeted protection against the

Omicron variants. Ontarians are encouraged to speak with their health care provider about whether getting a second booster dose now is right for them.

High-risk individuals who should get their second booster dose as soon as possible and many of whom have been eligible to do so for months include:

Individuals aged 60 and over; First Nation, Inuit and Métis individuals and their non-Indigenous household members aged 18 and over; Residents of a long-term care home, retirement home, or Elder Care Lodge and older adults living in other congregate settings that provide assisted-living and health services; and Individuals who are moderately to severely immunocompromised. The Ontario government will also continue to provide free rapid antigen tests to the general public through existing channels like grocery stores and pharmacies, as well as to workplaces, schools, hospitals, long-term care and retirement homes and other congregate settings until December 31, 2022.

“Expanding eligibility to second booster doses and providing continued access to testing will empower Ontarians to make the best decisions for their circumstances and help keep our communities safe,” said Dr. Kieran Moore, Chief Medical Officer of Health. “Staying up to date on vaccination is the best protection against severe outcomes from COVID-19.” As part of the province’s plan to stay open, Ontario is expanding Ontario’s health care workforce, shoring-up domestic production of critical supplies and investing more than \$40 billion for over 50 major hospital projects that will bring over 3,000 new hospital beds. Since the start of the pandemic, the province has added over 8,600 health care professionals to the health care system with programs in place to recruit thousands more.

## STC Approved for Hartzell Propeller 3-Blade Mooney Bravo Prop

Replaces McCauley Propeller A Supplemental Type Certificate (STC) has been approved to replace McCauley propellers on Mooney M20M/TLS/Bravo series single-engine aircraft with Hartzell Propeller’s 75-inch diameter three-bladed aluminum props. Airplanes covered by the STC are powered by TIO-540-AF1A and TIO-540-AF1B Turbocharged Lycoming Sabre engines.

“Installing Hartzell’s Scimitar-style prop covered by this STC delivers 8-10 percent improvement in climb performance, a 2-3 knot increase in cruise, and looks terrific on the ramp coupled with Mooney’s signature tail,”

Hartzell President JJ Frigge. “And it has the Hartzell Top Prop 2,400 hour, 6-year time between overhaul, and warranty until first overhaul,” he added. The Hartzell Propeller Top Prop kit, HC-I3YF-1RF/F7498-1, is available for \$15,839 and includes a propeller, all-composite spinner assembly

and STC documentation. Additionally, a TKS ice protection kit is available at an additional charge, while electric de-ice approval is pending.

Through the years, about 10,000 Mooney airplanes have been equipped with Hartzell props. One of the launch platforms of the first Hartzell two-blade compact aluminum propellers in the early 1960s was the Mooney M20C. Through the decades, the M20 airframe was improved with the addition of metal wings, generations of avionics advances, fuselage stretches, increased gross weights and more horsepower.
