IADA Welcomes Lone Mountain Aircraft as an Accredited Member

2020 Cirrus SF 50 G2 Vision Jet listed for sale exclusively by Lone Mountain Aircraft on IADA's listing platform AircraftExchange.

Lone Mountain Aircraft, an aircraft reseller which annually handles over 200 pre-owned transactions, has joined the International Aircraft Dealers Association (IADA) as an accredited dealer. Lone Mountain specializes in representing clients who buy and sell light-turbine and piston-powered aircraft.

The company has offices and sales representatives in Atlanta, Dayton, Chicago, Knoxville, Las Vegas, Lincoln, Neb. and London. It is led by founder and President Mark Rogers.

Rogers said, "Buying and selling aircraft should be turbulence-free. Today, we provide a complete range of aircraft sales and acquisition services, meeting the needs of individuals and companies across the U.S. and in Europe. We are experts in high-performance piston and light turbine aircraft."

Rogers added that Lone Mountain also welcomes being becoming part of IADA's online listing marketplace, AircraftExchange. As a Cirrus pre-owned sales partner since 2008, Lone Mountain is the world's largest reseller of

Cirrus Aircraft and has expanded into several other popular aircraft including Embraer, Pilatus, Citation, TBM and Piper Meridian.

"As the only organization dedicated to promoting transparency and high-level ethics in international aircraft transactions, the IADA Board of Directors is gratified to be able to welcome high volume aircraft dealer Lone Mountain Aircraft as an accredited member," said IADA Executive Director Wayne Starling. "Mark and the Lone Mountain team will be a positive addition to our organization.

For more information on Lone Mountain Aircraft visit <https://www.lonemountainaircraft.com>.

About the International Aircraft Dealers Association IADA is a professional trade association formed more than 30 years ago, promoting the growth and public understanding of the aircraft resale industry. IADA now offers the world's only accreditation program for dealer organizations and the only certification program for individual brokers. The process delivers lofty standards of ethical business practices and transparency regarding aircraft transactions, leading to a more efficient and reliable marketplace. For more info go to <https://www.iada.aero>.

2022 CANADIAN AEROSPACE SUMMIT

NOVEMBER 8-9, 2022
OTTAWA, CANADA

Proudly hosted by AIAC

New sponsors confirmed
AIAC is proud to announce the support of two new sponsors for the Canadian Aerospace Summit that will be back on November 8-9, 2022 at the Shaw Centre in Ottawa. Collins Aerospace joins the Summit as Platinum Sponsor and Pratt & Whitney as Gold Sponsor.

Air Canada Marks its 85th Anniversary, Donates CF-TCC, Historic Aircraft From its Original Fleet to Winnipeg's Royal Aviation Museum of Western Canada

In celebration of its 85th anniversary, Air Canada today donated its historic aircraft, an original Lockheed L-10A Electra airplane to Winnipeg's Royal Aviation Museum of Western Canada. The iconic aircraft, the first fleet type flown by the carrier, made its final journey as it taxied from the Air Canada hangar at Winnipeg International Airport to the Museum at a handover ceremony. The airplane will go on permanent public display as an iconic piece of aviation history. The aircraft, with registration CF-TCC, was one of three purchased by Air Canada's forerunner, Trans-Canada Air Lines (TCA), in 1937. It was until recently one of only two Lockheed L10-A Electra aircraft still flying in the world. Named after a bright star in the Pleiades star cluster, the 10A Electra was the pride of the Lockheed Aircraft Corporation. In the 1930s, this twin-engine, all-metal monoplane was the exciting new face of commercial aviation. "There is no more fitting preservation and commemoration for one of our original aircraft than to have

TCC be on permanent display in Winnipeg, which was one of TCA's original hubs when the airline began operations in 1937 thanks to its central location in our country. Air Canada has a long and rich history connecting Canadians from coast to coast which continues to this day, and it all started with the Lockheed L-10A 85 years ago. As we celebrate our 85th anniversary, we mark this milestone by ensuring that such an important part of Canadian aviation history will be available for Canadians and aviation enthusiasts to enjoy for many years to come," said Captain Murray Strom, Senior Vice President – Flight

Operations at Air Canada. "We're very pleased that CF-TCC has landed at the Royal Aviation Museum and is now part of our permanent collection. This aircraft has ties to Winnipeg dating back to 1937 and to our museum in particular," notes Museum President & CEO Terry Slobodian. "Our museum was previously located in the original TCA hangar here in Winnipeg. The Lockheed Electra is a perfect picture of the early days of commercial air travel in Canada. We are grateful to Air Canada for their longstanding support of our museum and for entrusting us with this spectacular piece of aviation history."

from pg 1

The History of CF-TCC CF-TCC was one of three L-10A aircraft purchased by Trans-Canada Air Lines. The L-10A aircraft type operated TCA's inaugural flight on September 1, 1937, a 50-minute trip from Vancouver to Seattle carrying mail and two passengers. TCA had acquired the route plus two Lockheed L-10A aircraft from Canadian Airways. In that same month, TCA bought three additional Lockheed L-10A aircraft, brand new, from the Lockheed factory for \$73,000 each. These aircraft were dubbed the "Three Sisters" and carried the registrations CF-TCA, CF-TCB, and CF-TCC. The first aircraft, CF-TCA is now at the Canadian Aviation and Space Museum in Ottawa. CF-TCC last flew in 2018, and was one of two remaining Lockheed L-10A Electra aircraft still flying in the world. After being operated by TCA from 1937 to 1939, CF-TCC was sold to the Department of Transport Canada. During the next 40 years, the aircraft was sold several times to various private corporations and individuals. In 1962, CF-TCC was leased by TCA and six of the original TCA pilots operated a commemorative flight across Canada on the occasion of TCAs 25th Anniversary. In 1975, a retired Air Canada employee recognized the faded old registration marks on the aircraft while attending an air show in Texas. Air Canada kept track of the aircraft until 1983, at which point the airline purchased back the aircraft, restored it, and flew it during the Air Canada 50th Anniversary celebrations in 1986. At the end of the Fifty stop Canadian tour, CF-TCC was featured in the Air Canada pavilion during Expo 86 in Vancouver. Since 1986, the aircraft has been maintained in flying condition. Volunteers and support from the broader aviation community, including from Air Canada

taken as part of a package holiday, for travel up to 30 September 2023*. Travellers interested in exploring British Airways' newest destination, Oranjestad in Aruba, can enjoy seven nights on the Caribbean island from £979pp. Flights begin on 26 March 2023, operating twice weekly from London Gatwick. British Airways Holidays is also offering customers an additional saving of up to £300 on selected holidays, for a limited period. Those booking between 1 – 6 September 2022 can book a flight + hotel or flight + car holiday and make the following extra savings, on top of the September sale prices: £300 extra discount with a minimum spend of £10,000 per booking (flight + hotel) £200 extra discount with a minimum spend of £5,000 per booking (flight + hotel) £100 extra discount with a minimum spend of £2,500 per booking (flight + hotel & flight + car) £50 extra discount with a minimum spend of £1,250 per booking (flight + hotel & flight + car) £25 extra discount with a min spend of £650 per booking (flight + car) Claire Bentley, Managing Director of British Airways Holidays, said: "We know that, more than ever, many of our customers are keen to ensure value for money. This sale offers a huge variety of flights and holidays at a wide range of prices, giving plenty of choice for those keen to get away. This is coupled with The British Airways experience, from generous baggage allowances to great quality food and drink on board. British Airways Holidays customers can also benefit from our low deposits and the additional protection that comes with our holiday packages, so they can book with complete peace of mind." Further information on the flight and holiday sale can be found at ba.com/sale

Abu Dhabi Air Expo 2022 Confirms Sanad as a Key Sponsor

Abu Dhabi Air Expo 2022 has confirmed that Sanad Group, a wholly owned subsidiary of Mubadala Investment Company and a global aerospace engineering and leasing solutions leader, with more than three decades of industrial services experience, will champion the UAE capital's credentials as a global aviation centre of excellence at this year's Abu Dhabi Air Expo 2022.

With more than three decades of experience in commercial aviation, engine MRO services and aviation leasing, Sanad, a trusted partner of global original engine manufacturers including Rolls-Royce, GE Aviation, and Pratt & Whitney, has partnered with Abu Dhabi Air Expo 2022 to further enhance the event's standing on the global aerospace map.

During the Expo, Sanad executives will join key panel discussions addressing critical industry topics, including MROs and Air Traffic Management & Airport Security.

"With a name deriving from the Arabic word for support, Sanad supports its industry where and when it matters

most," said Didier Mary, General Manager of Abu Dhabi Air Expo. "As a globally renowned entity contributing to Abu Dhabi's position as a leading global aerospace and aviation hub, we're honoured to have Sanad partner Abu Dhabi Air Expo as a key sponsor."

Now in its 10th year, the Expo has evolved from a dedicated business and general aviation exhibition to a must-attend industry event showcasing the full spectrum of Middle Eastern civil aviation.

"Our involvement in this year's Abu Dhabi Air Expo stems from our strong belief in Abu Dhabi's growing contribution and influence on

the global aviation landscape. Sanad has a long-standing history of forging meaningful international partnerships to provide airlines and OEMs with unmatched industrial services from Abu Dhabi. We look forward to accelerating Abu Dhabi Air Expo's role as a global platform for forward-thinking dialogue, networking and business discussions that will further the sector's ongoing growth locally and globally." said Mansoor Janahi, Group CEO of Sanad.

Air Expo 2022 is a unique platform that brings together aerospace industry leaders and professionals with aviation enthusiasts, customers and students to

network, exchange ideas and showcase the latest thinking, technology and equipment in general aviation. The 80,000 square metre exhibition is expected to attract 18,000 visitors and host more than 300 manufacturers and suppliers.

The three-day Air Expo event will feature the latest innovations in private jet aircraft, aircraft engines, helicopters, executive charter services, airport equipment and services, avionics systems, insurance and financing. Over 100 aircraft, from ultra-light to heavy business jets, will be on display for delegates seeking various aircraft and aviation-related services. This year's event will include a new format that divides the exhibition into three main areas: aircraft hangar, chalets and outdoor static display. It will also feature a conference program providing industry thought leaders with a forum to share the latest thinking on general aviation and aerospace developments.

For more information about the show or to register, please visit <http://abudhabiairexpo.com/>

Guangzhou has excellent connections with the Greater Bay Area.

"Our twice-weekly service will further address the huge demand for passenger travel between the UAE and China, as well as provide new cargo capacity, building on the formidable people and business ties between the two markets."

With the addition of these new services from 10 October, Etihad will offer four weekly flights between Abu Dhabi and China: two services per week to Guangzhou and weekly services to Beijing and Shanghai.

Those wishing to book are advised to visit Etihad.com, and to remain informed on the relevant entry regulations at their end destination.

ETIHAD AIRWAYS UNVEILS ETIHAD AIRWAYS UNVEILS NEW ROUTE TO GUANGZHOU

Twice-weekly flights to Chinese gateway from October 2022

Etihad Airways is set to start flying to Guangzhou next month, becoming the first international airline to operate long-haul passenger services to the top three Chinese gateways since the start of the pandemic.

Subject to regulatory approvals, the twice-weekly passenger service to Guangzhou will start on 10 October, initially using a two-class Boeing 777.

The new route means Etihad will be offering guests convenient access to three Chinese gateways as Guangzhou is added to existing services to Shanghai which resumed in July 2020 and Beijing, which resumed in June 2022.

Martin Drew, Etihad's Senior Vice President Global Sales and Cargo, said: "We are proud to offer our guests a

third destination in China as Etihad Airways begins flights to the pivotal and historic port

city of Guangzhou. As well as being a modern and rapidly growing city itself,

Abu Dhabi-Guangzhou flight schedule from 10 October 2022, subject to regulatory approvals:

Flight	Departure	Time	Arrival	Time	Date
EY 868	Abu Dhabi	23:00	Guangzhou	10:25 (+1)	Monday/Friday
EY 869	Guangzhou	18:40	Abu Dhabi	22:40	Wednesday/Sunday

from pg 2

Maintenance and Flight Operations, over the years has dedicated thousands of hours of personal time and other contributions into keeping CF-TCC flying for generations to enjoy. When not flying, the aircraft has been based in the Western Canada Aviation Museum in Winnipeg, Manitoba, or stored in Air Canada's Winnipeg hangar.

On September 21, 2007, it recreated TCA's first flight from Vancouver to Seattle, marking Air Canada's 70th Anniversary. In 2012, as part of Air Canada's 75th Anniversary Celebrations, CF-TCC made several air show and public appearances, showcasing Air Canada's heritage and the history of commercial aviation in Canada.

In 2017 to mark the carrier's 80th anniversary, Air Canada's Lockheed 10A took to the skies for a cross country tour, beginning with a public appearance at the Royal Aviation Museum in Winnipeg. Along the way, the aircraft made stops

in Vancouver, Calgary, Edmonton, Saskatoon, Regina, Winnipeg, Thunder Bay, Sudbury, Toronto, Ottawa, Halifax, Quebec City.

In 2022, on occasion of Air Canada's 85th anniversary, the airline's Lockheed 10A made its final journey to the Royal Aviation Museum of Western Canada in Winnipeg. CF-TCC was taxied to the Museum from Air Canada's Hangar by the aircraft's long-time advocates and volunteers, Retired Captain Robert Giguere, Retired Captain Gerry Norberg, Retired Aircraft Maintenance Engineer George Huntington, and Air Canada Aircraft Maintenance Engineer Mike Clarkson.

BRITISH AIRWAYS' COMMUNITY FUND INVESTS MORE THAN THREE QUARTERS OF A MILLION POUNDS INTO PROJECTS ACROSS THE UK

In April, British Airways launched a community-based initiative, the BA Better World Community Fund to support projects in communities across the UK

Since its launch, the fund has reached more than £760,000 through donations and funding on the airline's Crowdfunder platform

The fund has supported more than 30 projects including providing funding for holiday clubs for children during the summer holidays as well as supporting other

environmental, educational and inclusive charities

For more than 30 years, the airline has supported projects across the world, including raising £26 million for Comic Relief through Flying Start with the help of its customers and colleagues

Since launching in April, the BA Better World Community Fund has delivered more than £760,000 of funding to support 30+ charities across the UK.

The funds have been raised in partnership with Crowdfunder, combining generous donations from the airline's customers, the wider public and contributions from British Airways.

The community fund has enabled the airline to offer vital financial support to a diverse range of charities across the UK, in areas that align with the airline's people, planet and responsible business sustainability themes. Investment in People Healthy Kidz is one of the many charities that has benefitted from the BA Better World Community Fund. The

support through the fund has enabled the organisation to run holiday camps across Northern Ireland this summer for more than 1,300 children, providing a wide range of multi-sport activities and educational sessions around nutrition to improve their physical, emotional and mental well-being.

The fund is also enabling incredible charities like Flamingo Chicks, based in Bristol, to help 6,500 children by providing workshops and classes for children with disabilities and their families to explore movement through dance. Katherine Sparkes MBE, Founder & CEO of Flamingo Chicks said: "We are so very grateful for the support from British Airways – it has been transformational to our charity. At a time when demand is at an all-time high, this will enable us to increase our delivery, getting more children with disabilities dancing than ever before! A huge thank you for helping Flamingo Chicks fly!"

Investment in Planet Funding has also been used to

support Living Streets Portsmouth, an initiative to encourage local biodiversity within city centres and a new garden has been created on the London Overground with Energy Garden for more than 12,000 daily commuters to enjoy.

The airline is also supporting Drug of Art through the fund, which is a community-led project created by artist Alison Lapper, MBE that showcases the positive power of creativity on mental health. This support will enable workshops and podcasts to take place at more than 500 schools and youth groups across the country to combat loneliness.

All of the charities that the fund supports align with the airline's BA Better World commitments to people, planet and responsible business to empower communities to create a more sustainable and inclusive future for all. The full list of the charities can be found here: www.bacommunityfund.co.uk/search/projects

Hartzell Engine Tech Accessories Ready to Compete At the National Championship Air Races in Reno

Hartzell Engine Tech induction air charging systems by AeroForce and Jasco alternators and voltage regulators will be firewall forward at the upcoming Reno Air Racing Association's Stihl National Championship Air Races Sept.

Hartzell Engine Tech supplies new-generation AeroForce turbochargers and engineering technical support to Grove Aero Sport race pilot and owner Karl Grove, out of Redlands, Calif. The Honda Generators Race 90

Team is a family-run air racing team located in Port Orange, Fla. It has been building, restoring, and racing AT-6 Texans for over 40 years.

The field is set for this year's STIHL National Championship Air Races with 152 planes and 156 pilots competing over the multi-day event. The air races are held every September just north of Reno, Nev. by the Reno Air Racing Association, a 501(c)(3) organization. The event has become an institution for Northern Nevada and aviation enthusiasts from around the world with seven racing classes, a large display of static aircraft and several military and civilian flight demonstrations.

About Hartzell Engine Tech Hartzell Engine Tech offers a product portfolio consisting of Janitrol Aero, Fuelcraft, Plane-

Power, Sky-Tec, AeroForce Turbocharger Systems and Quality Aircraft Accessories. Together, these strong brands provide engine accessories and heating solutions for the general aviation industry. Hartzell Engine Tech creates superior products that meet the demanding challenges of today's aircraft systems. Precise engineering, manufacturing, inspection and certification guarantee quality and control. The company's headquarters are in

Montgomery, Ala. For more info

go <https://hartzell.aero>.

About Hartzell Aviation The Hartzell Aviation name

brings together an outstanding array of firewall forward companies and products under one umbrella, reinforcing the organizations' core competencies and pursuit of improving General Aviation. The storied brands of Hartzell Aviation include Hartzell Propeller, Hartzell Aerospace Welding and Hartzell Engine Tech. Hartzell Aviation is committed to innovation and the continuous improvement of General Aviation products and services. The companies are guided by the overriding principle of Built on Honor, which reflects a commitment to quality, performance and support. Hartzell Aviation's website can be found at <https://hartzellaviation.com>.

Air Canada Announces Longlist for Canada's Best New Restaurants 2022
CanadasBestNewRestaurants.com.
